Process and Summary

VAP-Info19.7
Process and summary: Executive summary

This On-site Initial Audit Manufacturing VAP to Amphenol Airwave (Hai Yan) Communication Electronics Co., Ltd evaluates the company's practices, and supporting management systems against the RBA Audit criteria as contained in the RBA Audit Protocol and applicable laws and regulations. It was a Full Scope audit of all manufacturing buildings and common spaces (dormitory). The audit is held from Dec 10 2025 to Dec 12 2025. RBA qualified auditors spent a total of 3 days on site. Integrity issues are encountered during the audit: Nil. Exception management during the audit: There are restict areas where the auditee has communicated with and been appoved by RBA before the audit. So the audit scope only covers the areas that allow auditors to visit. The audit verification is based on objective evidence gathered through management, staff and worker interviews, documents review and workplace observations. During the audit, the following is identified: Priority findings: 0 Major findings: 12 minor findings: 1 Risk of non-conformance: 0 Opportunity for improvement: 0
List of Major Findings:
VAP-A3.1; Hours worked in a workweek does not exceed 60 hours.; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-A3.1.1.1.3 Above 60 h/workweek and below or equal to 72 h/workweek: (Mar 2025) 21 % with a highest of 72 hrs/workweek
(Aug 2025) 12 % with a highest of 65 hrs/workweek
(Nov 2025) 3 % with a highest of 63 hrs/workweek
VAP-A3.1.2 Waiver 1: N/A
Legal Reference: [PRC Labor Law, Article 41, effective since 29 December 2018, The employing unit may extend working hours due to the requirements of its production or business after consultation with the trade union and laborers, but the extended working hour for a day shall generally not exceed one hour; if such extension is called for due to special reasons, the extended hours shall not exceed three hours a day under the condition that the health of laborers is guaranteed. However, the total extension in a month shall not exceed thirty-six hours. 《中华人民共和国劳动法》, 第41条, 2018年12月29日实施，用人单位由于生产经营需要，经与工会和劳动者协商后可以延长工作时间，一般每日不得超过一小时；因特殊原因需要延长工作时间的，在保障劳动者身体健康的条件下延长工作时间每日不得超过三小时，但是每月不得超过三十六小时。]; VAP-A4.1; Wages for regular and overtime hours are meeting "equal pay for equal work and qualification", correctly calculated, and paid timely to all workers; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-A4.1.1.7 Payment made to leavers is not later than one month after final day on the job. Wages for regular and overtime hours are meeting "equal pay for equal work and qualification", correctly calculated, and paid to all workers. However, legal non-conformance, the severance pay for the employees of the auditee is paid out on the next regular payday, not paid in full within 5 working days from the date of cancellation or termination of the labor relationship.
Legal Reference: Measures on Management of Wages Payment for Zhejiang Provincial Enterprises (2017), Article 19 When a labor contract between an employing unit and an employee is canceled or terminated according to law, the wages shall be paid in full within 5 working days from the date of cancellation or termination of the labor relationship. 浙江省企业工资支付管理办法 第十九条 企业与劳动者依法解除、终止劳动合同的，应当自办理解除或者终止劳动合同手续之日起5 日内一次性结清工资。; VAP-A4.3; Deductions or withholdings are calculated correctly and submitted to the appropriate government agency within the local law time; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-A4.3.1.1 Calculations of employer contributions to worker insurance schemes are available on a monthly basis that allows for analysis by individual worker and total per contribution type. Deductions or withholdings are calculated and submitted to the appropriate government agency within the local law time frame. However, legal non-compliances are found: 19 out of 29 (66%) workers are not provided with Housing Provident Fund.
Legal Reference: [Regulation on the Administration of Housing Accumulation Funds (2019), Article 15, effective since March 24, 2019. Where an entity employs an employee, it shall, within 30 days from the date when it employs him or her, undergo the formalities for registration of housing provident fund contribution with the housing provident fund management center, and undergo the formalities for the opening or transfer of the housing provident fund account for the employee. Regulation on the Administration of Housing Accumulation Funds (2019), Article 19, effective since March 24, 2019. The housing accumulation fund that worker individual pay puts, withhold from its salary every month by place unit pay. The unit shall, within 5 days from the date of monthly payment of staff and workers' wages, remit the housing accumulation fund paid by the unit or paid on behalf of the staff and workers to the special account of the housing accumulation fund, and the entrusted bank shall record it into the account of the staff and workers' housing accumulation fund. 住房公积金管理条例 第十五条，2019年3月24日生效。单位录用职工的，应当自录用之日起30日内向住房公积金管理中心办理缴存登记，并办理职工住房公积金账户的设立或者转移手续。住房公积金管理条例 第十九条，2019年3月24日生效。职工个人缴存的住房公积金，由所在单位每月从其工资中代扣代缴。单位应当于每月发放职工工资之日起5日内将单位缴存的和为职工代缴的住房公积金汇缴到住房公积金专户内，由受委托银行计入职工住房公积金账户。]Administration of Housing Accumulation Funds (2019), Article 19, effective since March 24, 2019. The housing accumulation fund that worker individual pay puts, withhold from its salary every month by place unit pay. The unit shall, within 5 days from the date of monthly payment of staff and workers' wages, remit the housing accumulation fund paid by the unit or paid on behalf of the staff and workers to the special account of the housing accumulation fund, and the entrusted bank shall record it into the account of the staff and workers' housing accumulation fund. 住房公积金管理条例 第十五条，2019年3月24日生效。单位录用职工的，应当自录用之日起30日内向住房公积金管理中心办理缴存登记，并办理职工住房公积金账户的设立或者转移手续。住房公积金管理条例 第十九条，2019年3月24日生效。职工个人缴存的住房公积金，由所在单位每月从其工资中代扣代缴。单位应当于每月发放职工工资之日起5日内将单位缴存的和为职工代缴的住房公积金汇缴到住房公积金专户内，由受委托银行计入职工住房公积金账户。]Administration of Housing Accumulation Funds (2019), Article 19, effective since March 24, 2019. The housing accumulation fund that worker individual pay puts, withhold from its salary every month by place unit pay. The unit shall, within 5 days from the date of monthly payment of staff and workers' wages, remit the housing accumulation fund paid by the unit or paid on behalf of the staff and workers to the special account of the housing accumulation fund, and the entrusted bank shall record it into the account of the staff and workers' housing accumulation fund. 住房公积金管理条例 第十五条，2019年3月24日生效。单位录用职工的，应当自录用之日起30日内向住房公积金管理中心办理缴存登记，并办理职工住房公积金账户的设立或者转移手续。住房公积金管理条例 第十九条，2019年3月24日生效。职工个人缴存的住房公积金，由所在单位每月从其工资中代扣代缴。单位应当于每月发放职工工资之日起5日内将单位缴存的和为职工代缴的住房公积金汇缴到住房公积金专户内，由受委托银行计入职工住房公积金账户。]; VAP-A.M.1.2; An adequate and effective due diligence process is established to identify and assess the most significant actual and potential labor risks where the facility caused or contributed to adverse labor impacts including applicable requirements.; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-A.M.1.2.2.1 Each identified risk include and assess legal and customer requirements and has an action to minimize such risk for the most significant risks The auditee does not identify the most significant actual and potential labor risks of legal requirement of monthly overtime and housing provident fund and delay severance pay risks where the facility caused
VAP-A.M.1.2.3.1 an adequate and effective internal and external stakeholder identification process for labor Scope of risk assessment of Labour risk assessments lacked the Stakeholders immediately neighbouring the auditee.; VAP-A.M.2.2; Adequate and effective Labor policies and control processes are established; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-A.M.2.2.1.1.1 control measures are in place for identified risks Labor policies and control processes are established. However, systemic failure, the working hours controls are found to be in non-conformance as a major finding in A3.1.; VAP-A.M.4.2; An adequate and effective labor self-audit process is established to assess conformance with the RBA Code and customer requirements periodically; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations

VAP-A.M.4.2.1.1 adequate and effective self audit process to periodically assess conformance with applicable regulatory, RBA, customer and other requirements the facility subscribes to. The audit findings are reviewed by senior management.
Ineffective implementation of procedure to assess RBA code: a) Non-conformance of legal requirements of monthly and daily overtimes and severance pay is not identified in the annual internal audit. b) Non-conformance of legal requirements and RBA code requirements of weekly working hours and Housing Fund is not identified in the annual internal audit.; VAP-A.M.4.3; An adequate and effective labor corrective action process is established to rectify and close non-conformances.; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-A.M.4.3.3.1 have not identified any non-conformances No non-conformance is input from the annual internal audit in the annual management review.
VAP-A.M.4.3.4 management system review findings, self audit findings, government inspection findings and off-track indicators, objectives and targets have a corrective action plan No corrective action reports/plans and tracking tables is conducted in annual management review.
VAP-A.M.4.3.5.1 closure verification reports with mgmt. confirmation exist for each corrective action plan item b) No closure verification report is conducted.; VAP-B1.2; Health & safety hazards are identified, assessed, mitigated using the Hierarchy of Controls, which includes eliminating, substituting, controlling through proper design, process and administrative controls and appropriate Personal Protective Equipment (PPE) which is consistently and correctly used; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-B1.2.1.8 Precautions and controls of electrical hazards are in place such as locked cabinets, closed panels, unobstructed access 1. 1 out of 3 electrical control cabinet is not installed with inner protective cover in 2F canteen of #A building. 2. 1 out of 3 electrical control box is not installed with outer protective cover at 1F of #C building.
VAP-B1.2.1.13 PPE (including ERT PPE) is adequate in good and working condition 2 out of 4 safety helmets are expired at 1F of #C building.
Legal Reference: [General Guide for Safety of Electric User (GB/T13869-2017), Article 5.1.2 electric circuit in use must have sufficient insulation strength, mechanical strength and conductive capability and the installation of which should meet the standards for corresponding electrical devices. 《**用电安全导则**GB/T13869-2017》**第**5.1.2**条 电气线路应具有足够的绝缘强度、机械强度和导电能力，其安装应符合相应产品标准的规定**。PRC Work Safety Law (2002), Amendment (2014), Article 42 Production and business units shall provide their employees with work protection gears that are up to national standards or industrial specifications, and they shall give instruction to their employees and see to it that they wear or use these gears. **中华人民共和国安全生产法 第四十二条 生产经营单位必须为从业人员提供符合国家标准或者行业标准的劳动防护用品，并监督、教育从业人员按照使用规则佩戴、使用**。]; VAP-B2.3; Effective emergency exit access, exits, and exit discharge are adequate in number and location, readily accessible, and properly maintained; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-B2.3.1.8 All Exit Discharge doors must be a single motion exit The exit discharge door for 1 out of 3 emergency exits at 1F of #D building is not a single motion exit. Two motions are needed to open, step 1 is to press the button of access control, step 2 is to push the door. No immediate risk to life during an emergency.
VAP-B2.3.1.10 Exit signs are provided to mark exits on every floor 1) No exit signs are installed above 2 out of 3 emergency exits at 1F of #D building. 2) No exit sign is installed above 1 out of 2 emergency exits at 3F of #A building.
VAP-B2.3.1.15 Emergency lighting provided and installed to illuminate means of egress in the event of a power failure. No emergency light is installed above 1 out of 2 emergency exits at 3F of #A building.
Legal Reference: [General Code for Fire Protection of Buildings and
Constructions (GB 55037-2022), Article 10.1.8Except for silos, bulk grain warehouses and those places where fire spreads slowly, the following buildings should be equipped with light evacuation signage. Evacuation signs, and their distance and illuminance should make sure the egress pathway is correctly and clearly indicated, and continuous signage is provided along the egress pathway. 1. Type A, B and C production buildings, high-rise type D or E production buildings. **建筑防火通用规范**（GB 55037-2022）**第**10.1.8 **条**
除筒仓、散装粮食仓库和火灾发展缓慢的场所外，下列建筑应设置 灯光疏散指示标志，疏散指示标志及其设置间距、照度应保证疏散 路线指示明确、方向指示正确清晰、视觉连续： 1、**甲、乙、丙类厂房，高层丁、戊类厂**.
General Code for Fire Protection of Buildings and Constructions (GB 55037-2022), Article 10.1.9 Except for silos, bulk grain warehouses and those places where fire spreads slowly, the following areas of production buildings, type C warehouses, civil buildings and civil air defense projects which are used in peace should be provided with emergency lighting: 1. Emergency exits, egress stairs and their antechamber or shared antechamber, shelter walkways and their antechamber, shelter floor, shelter room, fire passageway, overpasses and corridors used for emergency evacuation;
建筑防火通用规范（GB 55037-2022）**第** 10.1.9 **条除筒仓、散装粮食仓库和火灾发展缓慢的场所外，厂房、丙类仓 库、民用建筑、平时使用的人民防空工程等建筑中的下列部位应设置疏散照明：** 1、**安全出口、疏散楼梯（间）、疏散楼梯间的前室或合用前室、 避难走道及其前室、避难层、避难间、消防专用通道、兼作人员疏 散的天桥和连廊；**]
; VAP-B3.1; Work-related accidents, near-misses, and illnesses are reported, tracked, accurate, investigated, and analyzed, and workers are not in situations that can cause them imminent harm; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-B3.1.2.1 Accurate occupational safety reporting includes all reportable and non-reportable accidents, all incidents, all near misses No reports of near misses in last year;
VAP-B.M.3.1; An adequate and effective ongoing two-way communication process with workers, internal and external stakeholders, where relevant or necessary, is established to obtain feedback on operational occupational health and safety practices and conditions and to foster continuous improvement; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-B.M.3.1.1.3 appropriate signs, placards and labels identifying hazards 1 out of 3 electrical control boxes at 3F in #D building is not posted with warning sign.
VAP-B.M.3.1.1.6 maps are posted throughout the facility which clearly identify exit routes and muster points in the correct orientation 1. No evacuation plan maps is available for 3F workshop of #A building. 2. All evacuation plan maps do not have the internal muster points in the facility. 3. All evacuation plan maps in dormitory buildings do not show the position of “You are here”. ; VAP-E4.3; An adequate and effective process is established to ensure that the next-tier major suppliers implement the RBA Code; however, WRITE CONCLUSION for the Major Non-Conformance based on the following DP observations
VAP-E4.3.4.1 Adequate and effective facility compliance process for Major next tier supplier which includes a third-party qualified firm audit OR for non-high risk facilities validated self-Assessment (SAQ), a major health and safety or environmental non-conformance or risk requires a Corrective Action plan and an audit is performed if there is any allegation or indication of nonconformance with a Major Supplier Process is established to ensure that the next-tier major suppliers implement the RBA Code. However, systemic process failure, the auditee does not identify a) Monthly overtime hours for 50% workers exceed local law limit of 36 hours per month with a maximum up to 52 hours. In March 2025 (Random month), monthly overtime hours for 5 out of 10 (50%) workers exceed local law limit of 36 hours per month with the maximum up to 52 hours. In August 2025 (Random month), monthly overtime hours for 6 out of 10 (60%) workers exceed local law limit of 36 hours per month with the maximum up to 52 hours. In November 2025 (Random month), monthly overtime hours for 4 out of 10 (40%) workers exceed local law limit of 36 hours per month with the maximum up to 44 hours. b) 5 out of 10 security service workers (50%) are not provided with social insurance. c) 5 out of 10 (50%) security service workers are not provided with Housing Provident Fund. [1.PRC Labor Law, Article 41, effective since 29 December 2018, The employing unit may extend working hours due to the requirements of its production or business after consultation with the trade union and laborers, but the extended working hour for a day shall generally not exceed one hour; if such extension is called for due to special reasons, the extended hours shall not exceed three hours a day under the condition that the health of laborers is guaranteed. However, the total extension in a month shall not exceed thirty-six hours. 《**中华人民共和国劳动法**》, **第**41**条**, 2018**年**12**月**29**日实施，用人单位由于生产经营需要，经与工会和劳动者协商后可以延长工作时间，一般每日不得超过一小时；因特殊原因需要延长工作时间的，在保障劳动者身体健康的条件下延长工作时间每日不得超过三小时，但是每月不得超过三十六小时**。2. PRC Labor Act (1995), Article 72 & 73 The sources of social insurance funds shall be determined according to the categories of insurance, and an overall pooling of insurance funds form the society shall be introduced step by step. The employing unit and laborers must participate in social insurance and pay social insurance premiums in accordance with the law. The

employees shall, in accordance with the law, be entitled to social insurance benefits under the following circumstances: (1) retirements; (2) illness or injury; (3) disability caused by work-related injury or occupational disease; (4) unemployment; and (5) maternity. The survivors of the insured laborers shall be entitled to subsidies for survivors in accordance with the law. The conditions and standards for laborers to enjoy social insurance benefits shall be stipulated by laws, rules and regulations. The social insurance amount that laborers and entitled to, must be timely paid in full amount. **中华人民共和国劳动法 第七十二条和第七十三条社会保险基金按照保险类型确定资金来源，逐步实行社会统筹。用人单位和劳动者必须依法参加社会保险，缴纳社会保险费。劳动者在下列情形下，依法享受社会保险待遇：(一)退休；(二)患病、负伤；(三)因工伤残或者患职业病；(四)失业；(五)生育。劳动者死亡后，其遗属依法享受遗属津贴。劳动者享受社会保险待遇的条件和标准由法律、法规规定。劳动者享受的社会保险金必须按时足额支付。**3. Regulation on the Administration of Housing Accumulation Funds (2019), Article 15, effective since March 24, 2019. Where an entity employs an employee, it shall, within 30 days from the date when it employs him or her, undergo the formalities for registration of housing provident fund contribution with the housing provident fund management center, and undergo the formalities for the opening or transfer of the housing provident fund account for the employee. Regulation on the Administration of Housing Accumulation Funds (2019), Article 19, effective since March 24, 2019. The housing accumulation fund that worker individual pay puts, withhold from its salary every month by place unit pay. The unit shall, within 5 days from the date of monthly payment of staff and workers' wages, remit the housing accumulation fund paid by the unit or paid on behalf of the staff and workers to the special account of the housing accumulation fund, and the entrusted bank shall record it into the account of the staff and workers' housing accumulation fund. **住房公积金管理条例 第十五条，2019年3月24日生效。单位录用职工的，应当自录用之日起30日内向住房公积金管理中心办理缴存登记，并办理职工住房公积金账户的设立或者转移手续。住房公积金管理条例 第十九条，2019年3月24日生效。职工个人缴存的住房公积金，由所在单位每月从其工资中代扣代缴。单位应当于每月发放职工工资之日起5日内将单位缴存的和为职工代缴的住房公积金汇缴到住房公积金专户内，由受委托银行计入职工住房公积金账户。**]

Question #	Process and Summary	Description
VAP-Info19.1	Management attitude	The management shows a cooperative attitude to the audit. They allow auditors to walk all areas in audit scope and conduct worker interviews.
VAP-Info19.2	Worker attitude	The facility agrees that auditors to conduct group and individual interviews confidentially. Workers are chosen within the whole facility freely without any influence by the facility management. Auditors randomly select 29 workers from different positions, sex and age and the interviews are conducted in meeting rooms without being interrupted. All workers are open and cooperative.
VAP-Info19.3	Process Integrity	Nil.
VAP-Info19.4	Closing meeting	The closing meeting is held at 15:00 on December 12, 2025. Compliance Manager, HR Manager, Compensation & Benefits Manager and EHS Manager attend the closing meeting. The audit results have been reviewed by the management during the closing meeting. The management accepts all the non-conformances found in the audit and promises to take corrective and preventative actions to ensure the compliance with legal and RBA Code requirements.
VAP-Info19.5	Exception management	There are restict areas where the auditee has communicated with and been appoved by RBA before the audit. So the audit scope only covers the areas that allow auditors to visit.

Full Listing of Questionnaire Results

A) LABOR	
A3) WORKING HOURS	
Question #	VAP-A3.1
Question Text	Hours worked in a workweek does not exceed 60 hours.
Rating	Major Non-Conformance
Conclusion	Hours worked in a workweek over the last 12 months exceed 60 hours and overtime hours exceed local law. The months of March 2025 (Random month), August 2025 (Random month) and November 2025 (Random month) are reviewed. The facility has no obvious peak season and low season. 1) The highest weekly working hours are 72h/workweek. Above 60 h/workweek and below or equal to 72 h/workweek: Average = 11.9% with a highest of 72 h/workweek. For March 2025 (Random month) = 21% with a highest of 72 h/workweek; For August 2025 (Random month) = 12% with a highest of 65 h/workweek; For November 2025 (Random month) = 3% with a highest of 63 h/workweek. 2) Monthly overtime hours for 92% workers exceed local law limit of 36 hours per month with a maximum up to 96 hours. In March 2025 (Random month), monthly overtime hours for 26 out of 29 (90%) workers exceed local law limit of 36 hours per month with the maximum up to 76 hours. In August 2025 (Random month), monthly overtime hours for 26 out of 29 (90%) workers exceed local law limit of 36 hours per month with the maximum up to 96 hours. In November 2025 (Random month), monthly overtime hours for 28 out of 29 (97%) workers exceed local law limit of 36 hours per month with the maximum up to 96 hours. 3) Daily overtime hours exceed local law limit of 3 hours per day with a maximum of up to 8.5 hours. Average = 20% with a highest of 8.5 hours per day. In March 2025 (Random month), daily overtime hours for 9 out of 29 (31%) workers exceed local law limit of 3 hours per day with the maximum up to 7 hours. In August 2025 (Random month), daily overtime hours for 6 out of 29 (21%) workers exceed local law limit of 3 hours per day with the maximum up to 5 hours. In November 2025 (Random month), monthly overtime hours for 2 out of 29 (7%) workers exceed local law limit of 3 hours per day with the maximum up to 8.5 hours. No young worker is found. [PRC Labor Law, Article 41, effective since 29 December 2018, The employing unit may extend working hours due to the requirements of its production or business after consultation with the trade union and laborers, but the extended working hour for a day shall generally not exceed one hour; if such extension is called for due to special reasons, the extended hours shall not exceed three hours a day under the condition that the health of laborers is guaranteed. However, the total extension in a month shall not exceed thirty-six hours. **《中华人民共和国劳动法》, 第41条, 2018年12月29日实施，用人单位由于生产经营需要，经与工会和劳动者协商后可以延长工作时间，一般每日不得超过一小时；因特殊原因需要延长工作时间的，在保障劳动者身体健康的条件下延长工作时间每日不得超过三小时，但是每月不得超过三十六小时。**]

Validated Audit Report

Data points	**Data Point:** Record Review: 29 out of 29 working hour records for the period December 2024 to November 2025 covering each month of the period of Mar 2025 (random), Aug 2025 (random) and Nov 2025 (random) demonstrate hours worked in a workweek are in compliance in the following categories: Below local law and below or equal to 60 h/workweek: (Mar 2025) 79 % with a highest of 60 hrs/workweek (Aug 2025) 88 % with a highest of 60 hrs/workweek (Nov 2025) 97 % with a highest of 60 hrs/workweek However, Above 60 h/workweek and below or equal to 72 h/workweek: (Mar 2025) 21 % with a highest of 72 hrs/workweek (Aug 2025) 12 % with a highest of 65 hrs/workweek (Nov 2025) 3 % with a highest of 63 hrs/workweek **Data Point:** No working hours waiver in place Comment: No waiver is obtained by the auditee. **Data Point:** Record Review: 29 out of 29 Production records for the period December 2024 to November 2025 confirm working hours **Data Point:** Record Review: 6 out of 6 preventive maintenance records for the period December 2024 to November 2025 confirm time recording devices are functional and accurate Comments: Monthly overtime hours for 92% workers exceed local law limit of 36 hours per month with a maximum up to 96 hours. In March 2025 (Random month), monthly overtime hours for 26 out of 29 (90%) workers exceed local law limit of 36 hours per month with the maximum up to 76 hours. In August 2025 (Random month), monthly overtime hours for 26 out of 29 (90%) workers exceed local law limit of 36 hours per month with the maximum up to 96 hours. In November 2025 (Random month), monthly overtime hours for 28 out of 29 (97%) workers exceed local law limit of 36 hours per month with the maximum up to 96 hours. 3) Daily overtime hours exceed local law limit of 3 hours per day with a maximum of up to 8.5 hours. Average = 20% with a highest of 8.5 hours per day. In March 2025 (Random month), daily overtime hours for 9 out of 29 (31%) workers exceed local law limit of 3 hours per day with the maximum up to 7 hours. In August 2025 (Random month), daily overtime hours for 6 out of 29 (21%) workers exceed local law limit of 3 hours per day with the maximum up to 5 hours. In November 2025 (Random month), monthly overtime hours for 2 out of 29 (7%) workers exceed local law limit of 3 hours per day with the maximum up to 8.5 hours. No young worker is found. **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
A4) WAGES AND BENEFITS	
Question #	VAP-A4.1
Question Text	Wages for regular and overtime hours are meeting "equal pay for equal work and qualification", correctly calculated, and paid timely to all workers.
Rating	Major Non-Conformance
Conclusion	Wages for regular and overtime hours are meeting "equal pay for equal work and qualification", correctly calculated, and paid to all workers. However, legal non-conformance, the severance pay for the employees of the auditee is paid out on the next regular payday, not paid in full within 5 working days from the date of cancellation or termination of the labor relationship. [Measures on Management of Wages Payment for Zhejiang Provincial Enterprises (2017), Article 19 When a labor contract between an employing unit and an employee is canceled or terminated according to law, the wages shall be paid in full within 5 working days from the date of cancellation or termination of the labor relationship. **浙江省企业工资支付管理办法 第十九条 企业与劳动者依法解除、终止劳动合同的，应当自办理解除或者终止劳动合同手续之日起5 日内一次性结清工资。**]

Data points	**Data Point:** Record Review: 29 out of 29 payroll records for the period December 2024 to November 2025 demonstrate Equal pay for equal work and qualification is met; Pay equals time worked for any company-required activity is met; Deployed workers are paid at least the minimum wage and all legally entitled benefits of the location where they are deployed.; Agreed wage for all regular hours is paid to all workers; Overtime and other compensation and benefits are paid and are on top of agreed wage for regular hours; Overtime is paid at a rate that is at least 125% of the rate for regular hours; Wages benefits, and overtime are correctly calculated; Wages are paid directly to workers (or a legally designated third party) with no unauthorized deductions (including for disciplinary measures) in a timely manner.; maternity or sick leave absences do not incur a financial penalty; Wage records are accurate; PPE is not deducted from wages or paid by workers However: Wages for regular and overtime hours are meeting "equal pay for equal work and qualification", correctly calculated, and paid to all workers. However, legal non-conformance, the severance pay for the employees of the auditee is paid out on the next regular payday, not paid in full within 5 working days from the date of cancellation or termination of the labor relationship. **Data Point:** Record Review: 6 out of 6 leave records for the period December 2024 to November 2025 confirm payments are correctly calculated **Data Point:** Record Review: 29 out of 29 working hour records for the period December 2024 to November 2025 demonstrate Payments are correctly calculated **Data Point:** Record Review: 6 out of 6 grievance records for the period December 2024 to November 2025 confirm worker payments are correctly calculated **Data Point:** Record Review: 29 out of 29 payroll slip records for the period December 2024 to November 2025 confirm worker payments are correctly calculated **Data Point:** Record Review: 29 out of 29 payroll payment records for the period December 2024 to November 2025 confirm all worker payments are correctly calculated; all workers are paid directly without any intermediary (except a bank); All resigned workers are paid timely **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-A4.3
Question Text	Deductions or withholdings are calculated correctly and submitted to the appropriate government agency within the local law time frame.
Rating	Major Non-Conformance
Conclusion	Deductions or withholdings are calculated and submitted to the appropriate government agency within the local law time frame. However, legal non-compliances are found: 19 out of 29 (66%) workers are not provided with Housing Provident Fund. [Regulation on the Administration of Housing Accumulation Funds (2019), Article 15, effective since March 24, 2019. Where an entity employs an employee, it shall, within 30 days from the date when it employs him or her, undergo the formalities for registration of housing provident fund contribution with the housing provident fund management center, and undergo the formalities for the opening or transfer of the housing provident fund account for the employee. Regulation on the Administration of Housing Accumulation Funds (2019), Article 19, effective since March 24, 2019. The housing accumulation fund that worker individual pay puts, withhold from its salary every month by place unit pay. The unit shall, within 5 days from the date of monthly payment of staff and workers' wages, remit the housing accumulation fund paid by the unit or paid on behalf of the staff and workers to the special account of the housing accumulation fund, and the entrusted bank shall record it into the account of the staff and workers' housing accumulation fund. **住房公积金管理条例 第十五条，2019年3月24日生效。单位录用职工的，应当自录用之日起30日内向住房公积金管理中心办理缴存登记，并办理职工住房公积金账户的设立或者转移手续。住房公积金管理条例 第十九条，2019年3月24日生效。职工个人缴存的住房公积金，由所在单位每月从其工资中代扣代缴。单位应当于每月发放职工工资之日起5日内将单位缴存的和为职工代缴的住房公积金汇缴到住房公积金专户内，由受委托银行计入职工住房公积金账户。**]
Data points	**Data Point:** Record Review: 29 out of 29 payroll for the period December 2024 to November 2025 demonstrate conformance However: Deductions or withholdings are calculated and submitted to the appropriate government agency within the local law time frame. However, legal non-compliances are found: 19 out of 29 (66%) workers are not provided with Housing Provident Fund. **Data Point:** Record Review: 12 out of 12 contribution payment for the period December 2024 to November 2025 demonstrate conformance Payment records for these contributions are available and payments are made timely. **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
A.M.1) RISK ASSESSMENT	

Validated Audit Report

Question #	VAP-A.M.1.2
Question Text	An adequate and effective due diligence process is established to identify and assess the most significant actual and potential labor risks where the facility caused or contributed to adverse labor impacts (including applicable requirements).
Rating	Major Non-Conformance
Conclusion	A due diligence process is established to identify and assess the most significant actual and potential labor risks where the facility caused or contributed to adverse labor impacts (including applicable requirements). 25% (2 out of 8) of the total number of conformance criteria is missing. a) the auditee does not identify the most significant actual and potential labor risks of legal requirement of monthly overtime and housing provident fund and delay severance pay risks where the facility caused. b) Scope of risk assessment of Labour risk assessments lacked the Stakeholders immediately neighbouring the auditee.
Data points	**Data Point:** Record Review: Labor & Ethics risk assessment procedure , Record reference: AHY/Q-S-02, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: an adequate and effective risk assessment process to identify the most significant actual and potential labor risks where the facility caused or contributed to adverse labor impacts for internal and external stakeholders including applicable requirements.; risk assessmens are updated when there is a Significant Change; the scope of the risk assessment includes every site operation/process, every physical location and all identified internal and external stakeholders, at least including direct and indirect workers, young workers, migrant workers, worker representatives, staff functions, on-site service providers, suppliers, customers and stakeholders immediately neighboring the auditee. **Data Point:** Record Review: 2 out of 2 risk assessments for the period December 2024 to November 2025 demonstrate risk assessments are updated when there is a Significant Change However: The auditee does not identify the most significant actual and potential labor risks of legal requirement of monthly overtime and housing provident fund and delay severance pay risks where the facility caused **Data Point:** Record Review: Stakeholder identification procedure , Record reference: AHY/A-S-10, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: However: Scope of risk assessment of Labour risk assessments lacked the Stakeholders immediately neighbouring the auditee. **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations
A.M.2) CONTROL PROCESSES	
Question #	VAP-A.M.2.2
Question Text	Adequate and effective labor policies and control processes are established.
Rating	Major Non-Conformance
Conclusion	Labor policies and control processes are established. However, systemic failure, the working hours controls are found to be in non-conformance as a major finding in A3.1.

A.M.4) PERFORMANCE REVIEW AND CONTINUOUS IMPROVEMENT	
Question #	VAP-A.M.4.2
Question Text	An adequate and effective labor self-audit process is established to assess conformance with the RBA Code and customer requirements periodically.
Rating	Major Non-Conformance
Conclusion	A labor self-audit process to periodically assess conformance with the RBA Code and customer requirements. However, 33% (2 out of 6) of total number of applicable conformance criteria are missing, ineffective implementation of procedure to assess RBA code: a) Non-conformance of legal requirements of monthly and daily overtimes and severance pay is not identified in the annual internal audit. b) Non-conformance of legal requirements and RBA code requirements of weekly working hours and Housing Fund is not identified in the annual internal audit.
Data points	**Data Point:** Record Review: Labor & Ethics self-audit procedure , Record reference: AHY/Q-EQ-01, Version Number: B, Issue date: November 27, 2020, Expiry date: Null, States: However: Ineffective implementation of procedure to assess RBA code: a) Non-conformance of legal requirements of monthly and daily overtimes and severance pay is not identified in the annual internal audit. b) Non-conformance of legal requirements and RBA code requirements of weekly working hours and Housing Fund is not identified in the annual internal audit. **Data Point:** Record Review: 1 out of 1 labor self audits for the period December 2024 to November 2025 demonstrate Self audits are performed regularly and audit findings are reviewed by senior management. **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations
Question #	VAP-A.M.4.3
Question Text	An adequate and effective labor corrective action process is established to rectify and close non-conformances.
Rating	Major Non-Conformance
Conclusion	A labor corrective action process is established to rectify and close non-conformances. However, 27% (3 out of 11) of total number of applicable conformance criteria are missing: a) No corrective action reports/plans and tracking tables is conducted in annual management review. b) No non-conformance is input from the annual internal audit in the annual management review. c) No closure verification report is conducted.

Data points	**Data Point:** Record Review: Labor & Ethics corrective action procedure , Record reference: AHY/Q-S-01, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adequate and effective corrective action process is in place to ensure recorded corrective action plans for any nonconformance are tracked, additional actions are taken when a corrective action is off-track, all actions are verifiably closed and closure is confirmed by a management representative. and there is a demonstrated link between the CAP and the performance management objectives and targets. **Data Point:** Record Review: 1 out of 1 labor self audits for the period December 2024 to November 2025 demonstrate all audited aspects are in conformance **Data Point:** Record Review: 2 out of 2 government inspections for the period December 2022 to November 2025 demonstrate However: No non-conformance is input from the annual internal audit in the annual management review. **Data Point:** No corrective action plans for the period December 2024 to November 2025 **Data Point:** No corrective action plan closure reports for the period December 2024 to November 2025 **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations
B) HEALTH AND SAFETY	
B1) OCCUPATIONAL HEALTH AND SAFETY	
Question #	VAP-B1.2
Question Text	Occupational health & safety hazards are identified, assessed, and mitigated using the Hierarchy of Controls, which includes eliminating, substituting, and controlling through proper design, process and administrative controls, and appropriate Personal Protective Equipment (PPE) which is consistently and correctly used.
Rating	Major Non-Conformance
Conclusion	Occupational health & safety hazards are identified, assessed, and mitigated using the Hierarchy of Controls, which includes eliminating, substituting, and controlling through proper design, process and administrative controls, and appropriate Personal Protective Equipment (PPE) which is consistently and correctly used, However, legal non-compliances, 1. 1 out of 3 electrical control cabinet is not installed with inner protective cover in 2F canteen of #A building. 2. 1 out of 3 electrical control box is not installed with outer protective cover at 1F of #C building. 3. 2 out of 4 safety helmets are expired at 1F of #C building. Legal Reference: [General Guide for Safety of Electric User (GB/T13869-2017), Article 5.1.2 electric circuit in use must have sufficient insulation strength, mechanical strength and conductive capability and the installation of which should meet the standards for corresponding electrical devices. 《**用电安全导则**GB/T13869-2017》**第**5.1.2**条 电气线路应具有足够的绝缘强度、机械强度和导电能力，其安装应符合相应产品标准的规定。**PRC Work Safety Law (2002), Amendment (2014), Article 42 Production and business units shall provide their employees with work protection gears that are up to national standards or industrial specifications, and they shall give instruction to their employees and see to it that they wear or use these gears. **中华人民共和国安全生产法 第四十二条 生产经营单位必须为从业人员提供符合国家标准或者行业标准的劳动防护用品，并监督、教育从业人员按照使用规则佩戴、使用。**]

Validated Audit Report

Data points	**Data Point:** Site Observation: Engineering controls are used where appropriate; Buildings are structurally sound; Confined spaces are identified; Stairways and elevated work areas are provided with appropriate guardrails and handrails and elevated work platforms are rated for load capacity; Aisles, stairways, and work areas are free of tripping hazards (stored materials, electrical cords, etc.); Workers are provided with appropriate fall protection for work in elevated work areas; Buildings are facilitated with tie-off points to provide workers with safe anchor points if they need to attach a harness.; Energized parts are protected from accidental contact by enclosures and barriers and all protective methods are in place and not deficient; In areas where powered industrial vehicles are used, pedestrian walkways are clearly delineated and physically separated, where possible, from vehicle operation areas effective pest control; Anyone who works or resides in an area for a period longer than exposure limit value that require PPE do so appropriate for the given hazard; PPE (including ERT PPE) is available; PPE is appropriately stored and accessible; ERT PPE storage is clearly marked, visible and easily accessible.; No pest visible However: 1. 1 out of 3 electrical control cabinet is not installed with inner protective cover in 2F canteen of #A building. 2. 1 out of 3 electrical control box is not installed with outer protective cover at 1F of #C building. 2 out of 4 safety helmets are expired at 1F of #C building. **Data Point:** Record Review: 2 out of 2 Risk mitigation evaluation reports for the period December 2024 to November 2025 demonstrate Each hierarchy level has been fully evaluated and reasons why it could not address the risk fully before proceeding to the next hierarchal level; Reasons why it could not address the risk fully before proceeding to the next hierarchal level **Data Point:** Record Review: 12 out of 12 Health & Safety inspection reports for the period December 2024 to November 2025 demonstrate a safety inspection is performed daily; a safety inspection is performed prior to each use for all industrial powered vehicles. **Data Point:** Record Review: 2 out of 2 confined space entry evaluation reports for the period December 2024 to November 2025 demonstrate Evaluation is done before workers can enter **Data Point:** Record Review: 4 out of 4 hot work permits for the period December 2024 to November 2025 demonstrate Evaluation is done before workers weld, braze or cut; b) space is safe for brazing, cutting or welding **Data Point:** Record Review: 12 out of 12 electrical installations and wiring inspection reports for the period December 2024 to November 2025 demonstrate Electrical installations and wiring inspection are performed regularly; Electrical installations and wiring are maintained to prevent electrical shock hazards **Data Point:** Record Review: 4 out of 4 lockout/tagout reports for the period December 2024 to November 2025 demonstrate Lockout/tag out program is in place for work on equipment where stored energy; Lockout/tag out program is in place for inadvertent start-up could injure workers; Work on equipment where stored energy or equipment with inadvertent start-up is safe **Data Point:** Record Review: 4 out of 4 pest control logs for the period December 2024 to November 2025 demonstrate Adequate and effective pest control program **Data Point:** Record Review: 4 out of 4 PPE adequacy evaluation records for the period December 2024 to November 2025 demonstrate PPE used is adequate **Data Point:** Record Review: 12 out of 12 PPE inventory and replacement records for the period December 2024 to November 2025 demonstrate PPE is replaced when needed; PPE is in stock **Data Point:** Record Review: 12 out of 12 PPE inspection records for the period December 2024 to November 2025 demonstrate PPE is in good condition; PPE is used correctly **Data Point:** Record Review: 4 out of 4 respiratory protection equipment fit test record for the period December 2024 to November 2025 demonstrate PPE is in good condition; PPE is used correctly **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
B2) EMERGENCY PREPAREDNESS	
Question #	VAP-B2.3
Question Text	Effective emergency exit access, exits, and exit discharge are adequate in number and location, readily accessible, and properly maintained
Rating	Major Non-Conformance

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Conclusion	Emergency exit access, exits, and exit discharge are adequate in number and location, readily accessible, and properly maintained, however, legal non-compliances, 1) No exit signs are installed above 2 out of 3 emergency exits at 1F of #D building. 2) No exit sign is installed above 1 out of 2 emergency exits at 3F of #A building. 3) No emergency light is installed above 1 out of 2 emergency exits at 3F of #A building. 4) The exit discharge door for 1 out of 3 emergency exits at 1F of #D building is not a single motion exit. Two motions are needed to open, step 1 is to press the button of access control, step 2 is to push the door. No immediate risk to life during an emergency. [General Code for Fire Protection of Buildings and Constructions (GB 55037-2022), Article 10.1.8Except for silos, bulk grain warehouses and those places where fire spreads slowly, the following buildings should be equipped with light evacuation signage. Evacuation signs, and their distance and illuminance should make sure the egress pathway is correctly and clearly indicated, and continuous signage is provided along the egress pathway. 1. Type A, B and C production buildings, high-rise type D or E production buildings. **建筑防火通用规范**（GB 55037-2022）**第** 10.1.8 **条** **除筒仓、散装粮食仓库和火灾发展缓慢的场所外，下列建筑应设置 灯光疏散指示标志，疏散指示标志及其设置间距、照度应保证疏散 路线指示明确、方向指示正确清晰、视觉连续：** 1、**甲、乙、丙类厂房，高层丁、戊类厂**. General Code for Fire Protection of Buildings and Constructions (GB 55037-2022), Article 10.1.9 Except for silos, bulk grain warehouses and those places where fire spreads slowly, the following areas of production buildings, type C warehouses, civil buildings and civil air defense projects which are used in peace should be provided with emergency lighting: 1. Emergency exits, egress stairs and their antechamber or shared antechamber, shelter walkways and their antechamber, shelter floor, shelter room, fire passageway, overpasses and corridors used for emergency evacuation; **建筑防火通用规范**（GB 55037-2022）**第** 10.1.9 **条除筒仓、散装粮食仓库和火灾发展缓慢的场所外，厂房、丙类仓 库、民用建筑、平时使用的人民防空工程等建筑中的下列部位应设置疏散照明：** 1、**安全出口、疏散楼梯（间）、疏散楼梯间的前室或合用前室、 避难走道及其前室、避难层、避难间、消防专用通道、兼作人员疏 散的天桥和连廊；**]
Data points	**Data Point:** Site Observation: An adequate number of effective exit routes from every area; Exit routes are separated by an appropriate distance and do not share a common exit.; Exit routes are clear of obstructions; Exit discharges discharge to open space/parking lot, and do not discharge to an enclosed/gated/locked area; Exits are free of material storage; and enclosures are not used for any other purpose except for egress; All exit route doors (i.e. exit access doors, exit discharge doors) which serve high occupancy (=>50) or hazardous areas, open in the direction of egress.; All Exit Route doors (i.e. Exit Access doors and Exit Discharge doors) should open without using a key, badge, code, special knowledge, or effort.; All Exit Discharge doors must have listed panic hardware installed which is pushed open in a single motion; Exit signs are illuminated and/or lighted in the event of a power failure; Additional exit and/or directional signs are provided at main passageways/aisles, long corridors and at other locations where the way to the nearest exit is not clear.; Exit signs are illuminated and/or lighted in the event of a power failure.; Additional exit and/or directional signs are provided at main passageways/aisles, long corridors and at other locations where the way to the nearest exit is not clear.; Lighting shall provide adequate, functional emergency lighting in stairs, aisles, corridors, ramps, and passageways leading to exits, and in other areas as required by applicable laws.; Either battery or backup generator may power emergency lighting.; Penetrations are limited to sprinkler pipes, standpipes, and electrical services, pipe and duct installation serving the enclosures; Openings into the enclosures are protected by fire rated doors or window; Fire doors are in good condition, self-closing or automatic closing (upon fire alarm or detection of smoke; Integrity of exit enclosures is maintained; Inside and outside muster points have been established in safe locations to enable employee accountability during an emergency.; Emergency response kits are easily located and accessible near muster points However: The exit discharge door for 1 out of 3 emergency exits at 1F of #D building is not a single motion exit. Two motions are needed to open, step 1 is to press the button of access control, step 2 is to push the door. No immediate risk to life during an emergency. 1) No exit signs are installed above 2 out of 3 emergency exits at 1F of #D building. 2) No exit sign is installed above 1 out of 2 emergency exits at 3F of #A building. No emergency light is installed above 1 out of 2 emergency exits at 3F of #A building. **Data Point:** Record Review: 12 out of 12 emergency support equipment inspection records for the period December 2024 to November 2025 demonstrate Emergency lighting inspection records are available per insurance requirements or local practice whichever is stricter; Emergency exit sign inspection records are available per insurance requirements or local practice whichever is stricter; Evacuation path inspection records are available per insurance requirements or local practice whichever is stricter; Exit enclosure inspection records are available per insurance requirements or local practice whichever is stricter **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
B3) OCCUPATIONAL INJURY AND ILLNESS	
Question #	VAP-B3.1
Question Text	Work-related accidents, near-misses, and illnesses are reported, tracked, accurate, investigated, and analyzed, and workers are not in situations that can cause them imminent harm.
Rating	Major Non-Conformance
Conclusion	Work-related accidents, and illnesses are reported, tracked, accurate, investigated, and analyzed, and workers are not in situations that can cause them imminent harm. However, systemic process failure, no reports of near misses in last year.

D) ETHICS	
D.M.1) RISK ASSESSMENT	
Question #	VAP-D.M.1.2
Question Text	An adequate and effective due diligence process is established to identify and assess the most significant actual and potential ethics risks where the facility caused or contributed to adverse ethics impacts (including applicable requirements).
Rating	Minor Non-Conformance

Validated Audit Report

Conclusion	A due diligence process is established to identify and assess the most significant actual and potential ethics risks where the facility caused or contributed to adverse ethics impacts (including applicable requirements), However, 6% (1 out of 18) of the total number of conformance criteria is missing. Scope of risk assessment of Ethics lacked the Stakeholders immediately neighbouring the auditee.
Data points	**Data Point:** Record Review: Labor & Ethics risk assessment procedure , Record reference: AHY/Q-S-02, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adequate and effective risk assessment process is in place to identify the most actual and potential environmental risks where the facility caused or contributed to adverse ethics impacts for internal and external stakeholders including applicable requirements, considering business circumstances of the country/region and covering at least upholding the highest standards of integrity in all business interactions, obtaining undue or improper advantage being promised, offered, authorized, given, or accepted, Intellectual Property protection, fair business, advertising, and competition, non-retaliation or protection of identity and unauthorized disclosure of personal information ; The risk assessment is updated when there is a significant change; The scope of the risk assessment includes every site operation/process, every physical location and every task However: 6% (1 out of 18) of the total number of conformance criteria is missing, Scope of risk assessment of Ethics lacked the Stakeholders immediately neighbouring the auditee. **Data Point:** Record Review: 2 out of 2 risk assessments for the period December 2024 to November 2025 demonstrate Each identified risk include and assess legal and customer requirements and has an action to minimize such risk for the most significant risks; risk assessments are updated when there is a Significant Change **Data Point:** Record Review: Stakeholder identification procedure , Record reference: AHY/A-S-10, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: an adequate and effective internal and external stakeholder identification process for ethics **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations
A) LABOR	
A1) PROHIBITION OF FORCED LABOR	
Question #	VAP-A1.1
Question Text	Forced labor in any form, including but not limited to bonded (including debt bondage) or indentured labor, involuntary or exploitative prison labor, slavery, or trafficking of persons, is not permitted.
Rating	Conformance
Conclusion	Forced labor in any form, including but not limited to bonded (including debt bondage) or indentured labor, involuntary or exploitative prison labor, slavery, or trafficking of persons, is not permitted.
Data points	**Data Point:** Site Observation: Workers move freely when needed to access basic liberties; No systems for unreasonable restrictions are in place, such as toilet passes; Workers are free to leave the Auditee location when not engaged in work; Workers are free to access and leave the auditee living quarters when not engaged in work. **Data Point:** Record Review: 29 out of 29 Personnel files reveal All overtime is voluntary; Termination notice period is not longer than 1 month; Terminating employment is voluntary with no explicit threat of punishment, fines, violence, or withholding of wages; All work is voluntary (including choice of learning placement assignment); Allowed fees and penalties are disclosed to the worker; Allowed fees records are maintained; Prohibited fees are not permitted under any circumstances; No interest permitted on any loan **Data Point:** Record Review: 12 out of 12 Entry and leave records for the period December 2023 to November 2025 reveal conformance Entry and leave records do not show any restriction in movement **Data Point:** Record Review: 29 out of 29 payroll records for the period December 2023 to November 2025 reveal Terminating employment is voluntary with no explicit threat of punishment, fines, violence, or withholding wages; Prohibited fees are not permitted under any circumstances; No interest permitted on any loan **Data Point:** Record Review: 6 out of 6 working hour records for the period December 2023 to November 2025 reveal **Data Point:** Record Review: 6 out of 6 grievance records for the period December 2023 to November 2025 do not show any issues on All overtime is voluntary; Termination notice period is not longer than 1 month; Terminating employment is voluntary with no explicit threat of punishment, fines, violence, or withholding wages; All work is voluntary (including choice of learning placement assignment); Allowed fees and penalties are disclosed to the worker; Records on Fees are maintained and disclosed to the worker; Prohibited fees are not permitted under any circumstances; No interest permitted on any loan **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-A1.2

Validated Audit Report

Question Text	Terms and conditions of employment are provided in writing and in their native language, or a language the worker can understand, before employment (foreign and internal migrant workers: before leaving their home country/region) and the key terms and conditions of employment are explained verbally in a language workers can understand, so workers understand what the terms and conditions of employment state.
Rating	Conformance
Conclusion	Terms and conditions of employment are provided in writing and in their native language prior to employment (foreign migrant workers: before leaving their home country) and the key terms and conditions of employment are explained verbally in their native language so workers understand what the terms and conditions of employment state.
Data points	**Data Point:** Record Review: 29 out of 29 Local worker Employment Terms and Conditions show Local key employment terms and conditions are in writing in worker's native language or a language the worker can understand.; Terms and conditions of employment state that workers can resign without penalty with reasonable notice; Terms and conditions of employment are delivered before engagement indicating the conditions of work and remuneration, minimum wage guaranteed and Information concerning the general conditions of life and work; All work is voluntary **Data Point:** Not Applicable, There are no foreign migrant workers in the facility, There are no internal migrant workers present at the facility **Data Point:** Not Applicable, There are no foreign migrant workers in the facility, There are no internal migrant workers present at the facility, **Data Point:** Record Review: 29 out of 29 Proof of communication records for the period December 2024 to November 2025 demonstrate key components of the employment conditions are communicated to workers in a language they can understand and included nature of work, working hours, days off, holidays, entitlements, benefits, what fees the worker will be charged and the amounts, wages and wage deductions (including all components of social insurance) and how these are calculated, other non-legally required benefits provided and information concerning the general conditions of life and work **Data Point:** Record Review: 29 out of 29 Personnel files demonstrate conformance; include documentation on worker leaving conditions and the end of the contract. **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-A1.3
Question Text	The worker's government-issued identification and personal documentation originals are not held by their employer, agents and sub-agents.
Rating	Conformance
Conclusion	The worker’s government issued identification and personal documentation originals are not held by employer and agents
Data points	**Data Point:** Site Observation: Workers can demonstrate where personal records are kept securely; Workers maintain possession or control over their identification record; Workers always have access to their personal records **Data Point:** Record Review: 29 out of 29 Personnel files demonstrate No originals of workers' personal documentation is kept **Data Point:** Record Review: 29 out of 29 Personal documents show Original documents are not tampered with or damaged in any way **Data Point:** Not Applicable, There are no foreign migrant workers in the facility **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
A2) YOUNG WORKERS	
Question #	VAP-A2.1
Question Text	Workers are not below the minimum age
Rating	Conformance
Conclusion	Workers are not below the minimum age

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Data points	**Data Point:** Site Observation: No Identification of workers on-site under minimum age **Data Point:** Record Review: 29 out of 29 Personnel files reveal All workers are above minimum age or above company policy minimum age **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-A2.2
Question Text	Workers under the age of 18 are not allowed to perform work that is likely to jeopardize the health or safety of these young workers, including night work or overtime.
Rating	Conformance
Conclusion	Workers under the age of 18 are not allowed to perform work that is likely to jeopardize the health or safety of these young workers, including night work or overtime.
Data points	**Data Point:** Not Applicable, There are no young workers present in the facility **Data Point:** Not Applicable, There are no young workers present in the facility **Data Point:** Not Applicable, There are no young workers present in the facility **Data Point:** Not Applicable, There are no young workers present in the facility **Data Point:** Not Applicable, There are no young workers present in the facility **Data Point:** Not Applicable, There are no young workers present in the facility
Question #	VAP-A2.3
Question Text	Apprentice/Intern/Student Worker employment conforms with learning objectives.
Rating	Conformance
Conclusion	Apprentice/Intern/Student Worker employment conforms with learning objectives.
Data points	**Data Point:** Not Applicable, There are no student workers present in the facility, There are no apprentices present in the facility, There are no intern workers present in the facility **Data Point:** Not Applicable, There are no student workers present in the facility, There are no apprentices present in the facility, There are no intern workers present in the facility **Data Point:** Not Applicable, There are no student workers present in the facility **Data Point:** Not Applicable, There are no student workers present in the facility **Data Point:** Not Applicable, There are no student workers present in the facility **Data Point:** Not Applicable, There are no student workers present in the facility, There are no apprentices present in the facility, There are no intern workers present in the facility **Data Point:** Not Applicable, There are no student workers present in the facility, There are no apprentices present in the facility, There are no intern workers present in the facility
A3) WORKING HOURS	
Question #	VAP-A3.2
Question Text	Workers receive at least one (1) day off every seven (7) days
Rating	Conformance
Conclusion	Workers receive at least one (1) day off every seven (7) days

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Data points	**Data Point:** Record Review: 29 out of 29 working hour records for the period December 2024 to November 2025 covering each month of the period of Mar 2025 (random), Aug 2025 (random) and Nov 2025 (random) demonstrate workers receive at least one day off every number of days; Above or equal to 24 consecutive days worked: (Mar 2025) 0 % with a highest of consecutive working days (Aug 2025) 0 % with a highest of consecutive working days (Nov 2025) 0 % with a highest of consecutive working days Above 12 and below 24 consecutive days worked (Mar 2025) 0 % with a highest of consecutive working days (Aug 2025) 0 % with a highest of consecutive working days (Nov 2025) 0 % with a highest of consecutive working days Above 6 and below or equal to 12 consecutive days worked: (Mar 2025) 0 % with a highest of consecutive working days (Aug 2025) 0 % with a highest of consecutive working days (Nov 2025) 0 % with a highest of consecutive working days Below 7 consecutive days worked: (Mar 2025) 100 % with a highest of 6 consecutive working days (Aug 2025) 100 % with a highest of 6 consecutive working days (Nov 2025) 100 % with a highest of 6 consecutive working days **Data Point:** Record Review: 29 out of 29 Production records for the period December 2024 to November 2025 confirm days off data **Data Point:** Record Review: 6 out of 6 leave records for the period December 2024 to November 2025 confirm days off data **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. Question #	VAP-A5.3
Question Text	Reasonable accommodation for religious practices is provided.
Rating	Conformance
Conclusion	Reasonable accommodation for religious practices is provided
Data points	**Data Point:** Site Observation: Adequate prayer /religious areas are provided if requested or mandatory. **Data Point:** No Religious accommodation requests for the period December 2024 to November 2025 **Data Point:** No Religious accommodation request decision communication records for the period December 2024 to November 2025 **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-A5.4
Question Text	Reasonable accommodation for disability is provided.
Rating	Conformance
Conclusion	Reasonable accommodation for disability is provided
Data points	**Data Point:** Site Observation: Adequate accommodations for disability are provided. **Data Point:** No Disability accommodation requests for the period December 2024 to November 2025 **Data Point:** No Disability accommodation request decision communication records for the period December 2024 to November 2025 **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
A6) FREEDOM OF ASSOCIATION AND COLLECTIVE BARGAINING	
Question #	VAP-A6.1
Question Text	Workers can form or enroll in a trade union of their own free will.
Rating	Conformance
Conclusion	Workers can form or enroll in a trade union of their own free will
Data points	**Data Point:** Site Observation: No evident presence of violence and explicit threats of any kind; No evidence present of management's control of a trade union exists; No evident presence of a prohibition of association with a trade union **Data Point:** Record Review: 6 out of 6 Grievance records for the period December 2024 to November 2025 demonstrate There are no recorded episodes of violence, explicit threats of any kind or any other violations of the right to freedom of association; Grievance records on Freedom of Association should the grievance is acted upon **Data Point:** Record Review: 5 out of 5 External media records for the period December 2024 to November 2025 demonstrate There are no recorded episodes of violence, explicit threats of any kind or any other violations of the right to freedom of association **Data Point:** Record Review: 4 out of 4 worker representative meeting records for the period December 2024 to November 2025 demonstrate The source of funding and materials; Management contributions are limited to providing meeting space and/or meeting materials (such as note taking material) **Data Point:** Record Review: 29 out of 29 pay roll records for the period December 2024 to November 2025 demonstrate No difference in payment with other workers in similar job functions **Data Point:** Record Review: 4 out of 4 Communication records for the period December 2024 to November 2025 demonstrate There are no restrictions on workers' freedom of association, and communications regarding freedom of association are not prohibited. **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed

Validated Audit Report

Question #	VAP-A6.2
Question Text	The legal rights of all workers to bargain collectively, or refrain from doing so, are respected.
Rating	Conformance
Conclusion	Legal rights of all workers to bargain collectively, or refrain from doing so, are respected
Data points	**Data Point:** Site Observation: No evidence of refusal by management to enter negotiations upon request by the trade union certified to represent workers **Data Point:** Record Review: 6 out of 6 Grievance records for the period December 2024 to November 2025 demonstrate No evidence of refusal by management to enter negotiations upon request by the trade union; Auditee participates in good faith in the collective bargaining process with the trade union certified to bargain on behalf of the workers; **Data Point:** Record Review: 4 out of 4 worker representative meeting records for the period December 2024 to November 2025 demonstrate No evidence of refusal by management to enter negotiations upon request by the trade union; Auditee participates in good faith in the collective bargaining process with the trade union certified to bargain on behalf of the workers; **Data Point:** Record Review: N/A, Record reference: N/A, Version Number: N/A, Issue date: , Expiry date: , States: The Collective Bargaining Agreement terms and conditions are implemented; Religious accommodation does not vary from the Collective Bargaining Agreement; Dialogue with worker representatives is held if there is a difference between the religious accommodation and the CBA **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-A6.3
Question Text	Participants respect the legal right of all workers to peacefully assemble.
Rating	Conformance
Conclusion	Participants respect the legal right of all workers to peacefully assemble
Data points	**Data Point:** Site Observation: No signs of explicit prohibition of the right of peaceful assembly. **Data Point:** Record Review: 6 out of 6 Grievance records for the period December 2024 to November 2025 demonstrate Respects the right of workers to individually or collectively; to express, promote, pursue, and defend their concerns or ideas; Does not interfere with, restrain, or coerce workers in the exercise of their right to individually or collectively; to express, promote, pursue, and defend their concerns or ideas **Data Point:** Record Review: 4 out of 4 worker representative meeting records for the period December 2024 to November 2025 demonstrate Respects the right of workers to individually or collectively; to express, promote, pursue, and defend their concerns or ideas; Does not interfere with, restrain, or coerce workers in the exercise of their right to individually or collectively; to express, promote, pursue, and defend their concerns or ideas **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
A.M.1) RISK ASSESSMENT	
Question #	VAP-A.M.1.1
Question Text	An adequate and effective labor compliance process is established to monitor, identify, understand, and ensure compliance with applicable laws, regulations, and customer requirements.
Rating	Conformance
Conclusion	An adequate and effective labor compliance process to monitor, identify, understand and ensure compliance with applicable laws and regulations and customer requirements is established

Data points	**Data Point:** Record Review: Labor & Ethics training procedure, Record reference: AHY/A-EQ-01, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective training process for workers and managers and new employee orientation plan. Training is provided to all workers prior to the beginning of work **Data Point:** Record Review: Labor & Ethics training needs analysis , Record reference: Nil, Version Number: Nil, Issue date: December 10, 2024, Expiry date: Null, States: Training Needs Analysis covers minimum training topics **Data Point:** Record Review: Labor & Ethics training plan, Record reference: Nil, Version Number: Nil, Issue date: January 05, 2025, Expiry date: Null, States: adequate training plan covers all topics identified in the training needs analysis with an adequate training frequency. Training is provided to all workers prior to the beginning of work **Data Point:** Record Review: 6 out of 6 Training materials for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training materials **Data Point:** Record Review: 6 out of 6 Training records for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training records for all attendees **Data Point:** Record Review: 6 out of 6 Training efficiency verifications for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training verification records for all attendees **Data Point:** No Students/learners of apprentices in the facility **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
A.M.3) COMMUNICATIONS	
Question #	VAP-A.M.3.1
Question Text	An adequate and effective ongoing two-way communication process with workers, and internal and external stakeholders, where relevant or necessary, is established to obtain feedback on operational labor practices and conditions and to foster continuous improvement.
Rating	Conformance
Conclusion	An adequate and effective worker/manager (including to solicit and encourage worker participation, input and feedback for improvement), Supplier and customer communication/ for labor is established
Data points	**Data Point:** Site Observation: feedback channels are clearly communicated and visible **Data Point:** Record Review: Labor and Ethics communication and reporting procedure , Record reference: AHY/A-S-10, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adequate and effective communication and reporting process to suppliers, customers, workers and managers including seeking input and feedback from workers **Data Point:** Record Review: 4 out of 4 Correspondence to Supplier management for the period December 2024 to November 2025 demonstrate requirements of code implementation have been communicated **Data Point:** Record Review: 4 out of 4 contracts with suppliers demonstrate contract terms and conditions requiring Suppliers to conform to the RBA code are included **Data Point:** Record Review: 4 out of 4 Correspondence to customers management for the period December 2024 to November 2025 demonstrate that the following elements are communicated: recruitment practices and performance, on prohibition of forced labor, list of labor agents and contractors with percentage of workforce, costs to workers (in total absolute numbers and per contract base) and labor agent and contractor fees **Data Point:** Record Review: 4 out of 4 Correspondence to workers and managers for the period December 2024 to November 2025 demonstrate all minimum communication topics are covered and written information to workers on how to provide input and feedback for improvement **Data Point:** Record Review: 4 out of 4 Communications effectiveness records for the period December 2024 to November 2025 demonstrate effectiveness verification is done regularly **Data Point:** Record Review: 4 out of 4 Input and feedback records for the period December 2024 to November 2025 demonstrate input and feedback from workers is adequately received **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed

Validated Audit Report

Question #	VAP-A.M.3.2
Question Text	An adequate and effective process is established to anonymously report labor grievances confidentially without fear of reprisal or intimidation.
Rating	Conformance
Conclusion	An adequate and effective confidential Labor grievance without fear of reprisal or intimidation is established
Data points	**Data Point:** Site Observation: grievance channels are clearly communicated; internal communication of the grievance mechanism must be in workers' native language(s) and visible **Data Point:** Record Review: Grievance procedure , Record reference: AHY/A-S-16, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adequate and effective grievance process for internal and external stakeholders to anonymously report grievances without fear of reprisal through clear grievance channels so reporting is encouraged and comfortable **Data Point:** Record Review: 6 out of 6 Grievance records for the period December 2024 to November 2025 demonstrate grievances from stakeholders are adequately received **Data Point:** Record Review: 6 out of 6 Investigation records for the period December 2024 to November 2025 demonstrate the validity of any grievance is promptly investigated and each valid grievance has an action plan **Data Point:** Record Review: 6 out of 6 Correspondence to workers and managers and external stakeholders for the period December 2024 to November 2025 demonstrate they are provided with written information on how to report a grievance **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed

A.M.4) PERFORMANCE REVIEW AND CONTINUOUS IMPROVEMENT	
Question #	VAP-A.M.4.1
Question Text	An adequate and effective labor management performance review and continuous improvement process is established.
Rating	Conformance
Conclusion	An adequate and effective Labor management Performance review and continuous improvement process is established
Data points	**Data Point:** Record Review: Labor & Ethics performance management procedure , Record reference: AHY/Q-EQ-05, Version Number: B, Issue date: November 27, 2020, Expiry date: Null, States: adequate and effective performance management process to annually review the performance and management system and take additional action plans if indicators, objectives or targets are off track **Data Point:** Record Review: Labor & Ethics Indicator, target and objective communication , Record reference: AHY/Q-EQ-06, Version Number: B, Issue date: November 27, 2020, Expiry date: Null, States: formal indicator, target and objective communication to workers with clearly defined forward looking numeric and greater than 0 goal within the time period for each indicator, target and objective **Data Point:** Record Review: 3 out of 3 Action plans for the period December 2024 to November 2025 demonstrate All indicators, objectives or targets are on-track or an action plan is in place for those off-track **Data Point:** Record Review: 3 out of 3 Progress reports for the period December 2023 to November 2025 demonstrate each indicator, objective and target has progress reported regularly **Data Point:** Record Review: 1 out of 1 Labor system evaluations reports for the period December 2024 to November 2025 demonstrate Regular evaluations are done for the effectiveness of training, grievances and labor practices **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed

B) HEALTH AND SAFETY	
B1) OCCUPATIONAL HEALTH AND SAFETY	
Question #	VAP-B1.1
Question Text	All required permits, licenses, and test reports for Occupational Health and Safety are in place and communicated timely to the government (if required).
Rating	Conformance

Data points	**Data Point:** Site Observation: Assigned first aid kits are available in designated locations.; Assigned first aid kits are appropriate; Assigned first aid kits are completely stocked; First aid kits are unlocked; First response equipment is available in designated locations.; First response equipment is appropriate; First response equipment is well maintained; No asbestos blankets are used; Occupational medical clinic (infirmary) is adequately staffed; Occupational medical clinic (infirmary) is supplied to respond to injuries; Alternative resources such as outside medical services are communicated to employees when onsite clinic is not available **Data Point:** Record Review: 4 out of 4 First Aid / First Response kits/equipment inventory lists for the period December 2024 to November 2025 demonstrate First Aid / First Response kits/equipment have an inventory list; First Aid / First Response kits/ equipment inventory inspection frequency is at least monthly; First Aid / First Response kits/equipment have adequate supplies **Data Point:** Record Review: 4 out of 4 First Aid / First Response kits/equipment inspection records for the period December 2024 to November 2025 demonstrate Up-to-date inspection tracking records are available and show at least a monthly inspection frequency **Data Point:** Record Review: None, Record reference: N/A, Version Number: N/A, Issue date: Nil, Expiry date: Nil, States: Up-to-date in-house infirmary or clinic operations log is available; Supplies are available, adequate and inspected **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
B4) INDUSTRIAL HYGIENE	
Question #	VAP-B4.1
Question Text	Workers' exposures to chemical, biological, and physical hazards are identified, evaluated, and adequately controlled in accordance with the hierarchy of controls, which is maintained through ongoing, systematic monitoring of worker's health.
Rating	Conformance
Conclusion	Workers' exposures to chemical, biological, and physical hazards are identified, evaluated, and adequately controlled in accordance with the hierarchy of controls, which is maintained through ongoing, systematic monitoring of worker's health.

Validated Audit Report

Data points	**Data Point:** Site Observation: Chemicals are adequately and effectively categorized; Chemicals are adequately and effectively handled; Chemicals are adequately and effectively stored; Chemicals are adequately and effectively moved within a single facility/ multiple facility; Chemicals are adequately and effectively access controlled; Chemicals are adequately and effectively segregated; Chemicals have adequate and effective secondary containment; Chemicals have adequate and effective ventilation; Chemicals have adequate and effective fire protection; Chemicals have adequate and effective storage cabinets; Adequate and effective engineering controls to reduce or eliminate worker exposure to chemical agents are in place; Adequate and effective engineering controls to reduce or eliminate worker exposure to biological agents are in place; Adequate and effective engineering controls to reduce or eliminate worker exposure to physical agents are in place; Workplace is free from obvious odor; Workplace is free from visible fume; Workplace is free from dust; Workplace is free from other conditions leading to potential unhealthy feelings **Data Point:** Record Review: 2 out of 2 Chemical inventory records for the period December 2024 to November 2025 are Chemical inventory records are maintained, accurate, up-to-date **Data Point:** Record Review: Chemical control procedure, Record reference: AHY/H-E14-01, Version Number: B, Issue date: August 11, 2020, Expiry date: Null, States: Adequate and effective chemical control program with an administrative controls process to control the identified potential hazards to chemical , biological and physical agents **Data Point:** Record Review: Hazardous Chemical control procedure, Record reference: Nil, Version Number: Nil, Issue date: August 11, 2020, Expiry date: Null, States: Adequate and effective hazardous chemical process to track, review, approve the use and purchase of all hazardous chemicals; Adequate and effective hazardous chemical process to evaluate chemicals for less hazardous or non-hazardous alternatives including Greenhouse Gas and ozone depletion impact and to approve all purchases of new hazardous chemicals prior to use. **Data Point:** Record Review: 12 out of 12 Hazardous chemical inspection records for the period December 2024 to November 2025 demonstrate Accurate hazardous chemical inspection records are maintained for all hazardous substances, points of use and storage; Effective process and administrative controls to track use of all hazardous chemicals **Data Point:** Record Review: 6 out of 6 Medical surveillance records for the period December 2024 to November 2025 demonstrate Respiratory evaluations to determine if worker is being harmed from exposure to agents are maintained; Hearing loss evaluations related to specific job activities are maintained; Other medical evaluations related to specific job activities are maintained; Effective process and administrative controls to track use of all hazardous chemicals **Data Point:** Record Review: 2 out of 2 hazardous substances manifests and shipping papers for the period December 2024 to November 2025 demonstrate Chemical inventory records are accurate; Inspection records of hazardous substances and their points of storage and use are accurate. **Data Point:** Record Review: 2 out of 2 Approvals for purchase of hazardous chemicals for the period December 2024 to November 2025 demonstrate Approvals for purchase of hazardous chemicals and for all new purchases of hazardous chemicals prior to use include evaluations of chemicals of less hazardous or non-hazardous alternatives including Greenhouse Gas and ozone depletion impact is implemented **Data Point:** Record Review: 2 out of 2 hazardous chemicals evaluations for the period December 2024 to November 2025 demonstrate Evaluations of chemicals of less hazardous or non-hazardous alternatives including Greenhouse Gas and ozone depletion impact is implemented **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
B5) PHYSICALLY DEMANDING WORK	
Question #	VAP-B5.1
Question Text	Worker exposure to the hazards of physically demanding work is controlled effectively
Rating	Conformance
Conclusion	Worker exposure to the hazards of physically demanding work is controlled effectively
Data points	**Data Point:** Site Observation: Adequate engineering controls to reduce or eliminate physically demanding work are in place and effective **Data Point:** Record Review: 2 out of 2 Medical surveillance records for the period December 2024 to November 2025 demonstrate Effective process and administrative controls to track physically demanding work **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed

Validated Audit Report

B6) MACHINE SAFEGUARDING	
Question #	VAP-B6.1
Question Text	An adequate and effective machine-safeguarding program is implemented, and workers operate machinery safely.
Rating	Conformance
Conclusion	An adequate and effective machine-safeguarding program is implemented, and workers operate machinery safely
Data points	**Data Point:** Site Observation: All machines have adequate emergency stops; All machines have adequate safeguards; All workers operate machine safely. **Data Point:** Record Review: 6 out of 6 Work instructions demonstrate Work instructions are available at the machine in a language understood by the worker and demonstrate administrative controls **Data Point:** Record Review: 4 out of 4 Safe machine operation records for the period December 2024 to November 2025 demonstrate Safe machine operation records are available at the machine in a language understood by the worker and demonstrate administrative controls **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed

B7) FOOD, SANITATION AND HOUSING	
Question #	VAP-B7.1
Question Text	Worker housing is clean, safe and well-maintained and meet international housing standards
Rating	Conformance
Conclusion	Worker housing is clean, safe and well-maintained and meet international housing standards
Data points	**Data Point:** Site Observation: Worker housing are clean; Worker housing are properly maintained.; Common facilities are clean; Common facilities are properly maintained.; Clear, well-lit stairwells to allow for safe exit from dormitories; Building is adequately conditioned; Windows provide light and ventilation.; Adequate lighting; Safe and sufficient electricity sockets are provided; Sufficient space is available for each worker; Individually secured storage accommodations; All facilities are separated by gender; All facilities are adequate in number.; Lodging and cooking facilities are separate; Domestic waste disposal facilities are adequate **Data Point:** Record Review: Dormitory Management Policy, Record reference: SAA/H-E14-04, Version Number: B, Issue date: October 18, 2022, Expiry date: Null, States: worker housing requirements are applied regardless of the nature of contract, location or building; process and administrative controls are in place and effective **Data Point:** Record Review: 12 out of 12 Sanitation records for the period December 2024 to November 2025 demonstrate up-to-date sanitation records demonstrate process and administrative controls are effective **Data Point:** Record Review: 12 out of 12 maintenance records for the period December 2024 to November 2025 demonstrate up-to-date maintenance records demonstrate process and administrative controls are effective **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-B7.2
Question Text	Bathrooms, employee spaces, cafeterias, food areas are safe, clean, well maintained, and well managed
Rating	Conformance
Conclusion	Bathrooms, employee spaces, cafeterias, food areas are safe, clean, well maintained, and well managed

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Data points	**Data Point:** Site Observation: Toilets are clean and well maintained; Employee spaces are clean and well maintained; Prayer or religious areas are clean and well maintained; Cafeterias and food areas are clean and well maintained; Toilets are provided with adequate hand washing facilities.; Cafeterias and food areas are provided with adequate hand washing facilities.; Food service workers wear masks, hairnets and gloves as necessary to prevent food contamination.; Food storage and preparation areas are clean and well maintained; Food is stored properly, used or disposed of before the marked expiration date, kept covered with raw and cooked food stored separately **Data Point:** Record Review: Canteen Management Prolicy, Record reference: SAA/A-S00-03, Version Number: B, Issue date: November 01, 2022, Expiry date: Null, States: Adequate and effective food preparation and storage requirements demonstrate process and administrative controls are in place and effective **Data Point:** Record Review: 12 out of 12 Food handling and hygiene inspection reports for the period December 2024 to November 2025 demonstrate Up-to-date regular food handling and hygiene inspection reports demonstrate food handling is safe, meets or exceeds food hygiene requirements and process and administrative controls are in place and effective **Data Point:** Record Review: 12 out of 12 Sanitation records for the period December 2024 to November 2025 demonstrate Up-to-date sanitation records demonstrate process and administrative controls are effective **Data Point:** Record Review: 12 out of 12 maintenance records for the period December 2024 to November 2025 demonstrate Up-to-date maintained records demonstrate process and administrative controls are effective **Data Point:** Record Review: 12 out of 12 pest control records for the period December 2024 to November 2025 demonstrate Up-to-date maintained pest control records demonstrate process and administrative controls are effective **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
B.M.1) RISK ASSESSMENT	
Question #	VAP-B.M.1.1
Question Text	An adequate and effective Occupational Health and Safety compliance process is established to monitor, identify, understand, and ensure compliance with applicable laws, regulations, and customer requirements.
Rating	Conformance
Conclusion	An adequate and effective occupational Health & Safety compliance process to monitor, identify, understand and ensure compliance with applicable laws and regulations and customer requirements is established
Data points	**Data Point:** Record Review: EHS compliance procedure , Record reference: AHY/H-E-01, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: Adequate and effective quarterly compliance review procedure including applicable legal requirements and applicable customer requirements; To identify, assess, integrate, implement and record; And to ensure timely renewal for the expiration of permits, licenses and testing reports **Data Point:** Record Review: EHS compliance calendar , Record reference: Nil, Version Number: Nil, Issue date: November 12, 2025, Expiry date: Null, States: An accurate, up to date compliance calendar including applicable legal requirements and applicable customer requirements; A reminder system is in place **Data Point:** Record Review: EHS compliance register , Record reference: Nil, Version Number: Nil, Issue date: November 12, 2025, Expiry date: Null, States: Accurate, up to date compliance register with summaries of applicable laws, regulations and key RBA code related customer requirements that impact the operations **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
Question #	VAP-B.M.1.2
Question Text	An adequate and effective due diligence process is established to identify and assess the most significant actual and potential occupational health and safety risks where the facility caused or contributed to adverse occupational health and safety impacts (including applicable requirements).
Rating	Conformance
Conclusion	An adequate and effective due diligence process is established to identify and assess the most significant actual and potential labor risks where the facility caused or contributed to adverse occuptational health & safety impacts including applicable requirements.

Validated Audit Report

Data points	**Data Point:** Record Review: EHS risk assessment procedure , Record reference: AHY/H-E-12, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective risk assessment process to identify the most significant actual and potential occupational health and safety risks, including specific risks of relevant demographics, such as gender and age, where the facility caused or contributed to adverse health and safety impacts for internal and external stakeholders at least for harm to life, property, fire, chemical spill, earthquake, severe weather, workplace violence, strike and asbestos/lead; The risk assessment is updated when there is a Significant Change; The scope of the risk assessment includes every task, every site operation/process, every physical location and all identified internal and external stakeholders, including at least direct and indirect workers, young workers, migrant workers , worker representatives, staff functions, on-site service providers, suppliers, customers, stakeholders immediately neighboring the auditee, pregnant workers and nursing morthers (after pregnancy is reported and after the mother returns to work), chemical, biological, or physical agents (based on associated industrial hygiene sampling and testing and includes exposure to multiple chemicals) and machine safeguarding needs (pre-purchase/pre-installation hazard review of all machinery) **Data Point:** Record Review: 2 out of 2 risk assessments for the period December 2024 to November 2025 demonstrate Each identified risk include and assess legal and customer requirements and has an action to minimize such risk through the Hierarchy of Controls for the most significant risks; risk assessments are updated when there is a Significant Change **Data Point:** Record Review: Stakeholder management procedure , Record reference: SAA/H-E15-01, Version Number: A, Issue date: September 01, 2019, Expiry date: Null, States: an adequate and effective internal and external stakeholder identification process for occupational health & safety **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
B.M.2) CONTROL PROCESSES	
Question #	VAP-B.M.2.1
Question Text	Occupational health and safety responsibilities and authorities are adequately and effectively defined and assigned for all employee levels (senior managers to workers) for the implementation of management systems, and for compliance with laws, regulations, and codes.
Rating	Conformance
Conclusion	Health & Safety Responsibilities and authorities are adequately and effectively defined and assigned for all employees/workers (senior managers to workers) for implementation of management systems, and for compliance with laws, regulations and codes
Data points	**Data Point:** Site Observation: All conformance elements present; ERT personnel are easily identifiable.; First responders are easily identifiable **Data Point:** Record Review: EHS assignment letter , Record reference: Nil, Version Number: Nil, Issue date: October 01, 2022, Expiry date: Null, States: All conformance elements present; A record assigns a senior representative the responsibility to ensure compliance with laws and regulations, compliance with the requirements of the RBA and is authorized to make decisions on programs, process actions and corrective actions; Responsibilities and authorities of each organizational level are documented in regular and emergency situations; An emergency response team (ERT) is formed and assigned, available during all shifts and has the authority to direct the response to emergencies to ensure the protection of worker health & safety, the environment and property **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-B.M.2.2
Question Text	Adequate and effective occupational health and safety policies and control processes are established.
Rating	Conformance
Conclusion	Adequate and effective occupational health and safety policies and control processes are established

	customer requirements **Data Point:** Record Review: 2 out of 2 controls effectiveness evaluation for the period December 2024 to November 2025 demonstrate controls effectiveness evaluation is done on a regular basis **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-B.M.2.3
Question Text	An adequate and effective occupational health and safety training process is established for all managers/workers on all policy/ process/job-related aspects and performance targets.
Rating	Conformance
Conclusion	An adequate and effective Health & Safety training process is established for all managers/workers on all policy/process/job related aspects and performance targets
Data points	**Data Point:** Record Review: EHS training procedure , Record reference: AHY/A-EQ-01, Version Number: B, Issue date: July 29, 2019, Expiry date: Null, States: adequate and effective training process for workers, managers, ERT members, first aiders or responders, medical professionals and new employee orientation plan. Training is provided to all workers prior to the beginning of work **Data Point:** Record Review: EHS training needs analysis , Record reference: Nil, Version Number: Nil, Issue date: December 10, 2024, Expiry date: Null, States: Training needs analysis covers minimum training topics and specific training for ERT, first responders, medical professionals, workers responsible for storage, clean up or disposal of chemical releases, training will be dependent on responsibilities during an emergency **Data Point:** Record Review: EHS training plan, Record reference: Nil, Version Number: Nil, Issue date: January 05, 2025, Expiry date: Null, States: Adequate training plan covers all topics identified in the training needs analysis with an adequate training frequency. Training frequency for ERT, first aiders is at least annually, training is provided to all workers prior to the beginning of work and occupational health professionals and first responders are trained by external agencies or by internal qualified occupational health professionals **Data Point:** Record Review: 6 out of 6 Training materials for the period December 2024 to November 2025 demonstrate Each training on the training plan have adequate training materials **Data Point:** Record Review: 6 out of 6 Training records for the period December 2024 to November 2025 demonstrate Each training on the training plan have adequate training records for all attendees **Data Point:** Record Review: 6 out of 6 Training efficiency verifications for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training verification records for all attendees **Data Point:** No learner personnel files for the period December 2024 to November 2025 **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
B.M.3) COMMUNICATIONS	
Question #	VAP-B.M.3.2
Question Text	An adequate and effective process is established to anonymously report occupational health and safety grievances confidentially without fear of reprisal or intimidation.
Rating	Conformance
Conclusion	An adequate and effective process is established to anonymously report occupational health and safety grievances confidentially without fear of reprisal or intimidation.

Validated Audit Report

Data points	**Data Point:** Site Observation: grievance channels are clearly communicated; internal communication of the grievance mechanism must be in workers' native language(s) and visible **Data Point:** Record Review: Grievance procedure , Record reference: Nil, Version Number: Nil6, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective grievance process for internal and external stakeholders to anonymously report grievances without fear of reprisal through clear grievance channels so reporting is encouraged and comfortable and workers scan raise safety concerns including early reporting of discomfort. **Data Point:** Record Review: 6 out of 6 Grievance records for the period December 2024 to November 2025 demonstrate grievances from stakeholders are adequately received **Data Point:** Record Review: 6 out of 6 safety concern logs for the period December 2024 to November 2025 demonstrate safety concerns and early discomfort reporting from stakeholders is adequately received **Data Point:** Record Review: 6 out of 6 Investigation records for the period December 2024 to November 2025 demonstrate the validity of any grievance is promptly investigated and each valid grievance has an action plan **Data Point:** Record Review: 6 out of 6 Correspondence to workers and managers and external stakeholders for the period December 2024 to November 2025 demonstrate written information on how to report a grievance **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
B.M.4) PERFORMANCE REVIEW AND CONTINUOUS IMPROVEMENT	
Question #	VAP-B.M.4.1
Question Text	An adequate and effective occupational health and safety management performance review and continuous improvement process is established.
Rating	Conformance
Conclusion	An adequate and effective occupational health and safety management performance review and continuous improvement process is established
Data points	**Data Point:** Record Review: EHS performance management process, Record reference: AHY/Q-EQ-05, Version Number: B, Issue date: November 27, 2020, Expiry date: Null, States: adquate and effective performance management process to annually review the performance and management system and take additional action plans if indicators, objectives or targets are off track **Data Point:** Record Review: Health & safety Indicator, target and objective performance , Record reference: AHY/H-E-06, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: formal indicator, target and objective communication to workers with clearly defined forward looking numeric and greater than 0 goal within the time period for each indicator, target and objective **Data Point:** Record Review: 2 out of 2 Action plans for the period December 2024 to November 2025 demonstrate All indicators, objectives or targets are on-track or an action plan is in place for those off-track **Data Point:** Record Review: 2 out of 2 Progress reports for the period December 2024 to November 2025 demonstrate each indicator, objective and target has progress reported regularly **Data Point:** Record Review: 2 out of 2 Health & Safety system evaluations reports for the period December 2024 to November 2025 demonstrate Regular evaluations are done for the effectiveness of every program, training, communication, grievances, OHS practices and safety concerns **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-B.M.4.2
Question Text	An adequate and effective occupational health and safety self-audit process is established to assess conformance with the RBA Code and customer requirements periodically.
Rating	Conformance
Conclusion	An adequate and effective occupational health and safety self-audit process is established to assess conformance with the RBA Code and customer requirements periodically

Validated Audit Report

Data points	**Data Point:** Record Review: Self audit management procedure, Record reference: AHY/Q-EQ-01, Version Number: B, Issue date: November 27, 2020, Expiry date: Null, States: adequate and effective self audit process to periodically assess conformance with applicable regulatory, RBA, customer and other requirements the facility subscribes to. The audit findings are reviewed by senior management. **Data Point:** Record Review: 1 out of 1 Health & Safety self audits for the period December 2024 to November 2025 demonstrate Self audits are performed regularly and audit findings are reviewed by senior management. **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
Question #	VAP-B.M.4.3
Question Text	An adequate and effective occupational health and safety corrective action process is established to rectify and close non-conformances.
Rating	Conformance
Conclusion	An adequate and effective occupational health and safety corrective action process is established to rectify and close non-conformances
Data points	**Data Point:** Record Review: Corrective action procedure, Record reference: AHY/H-E-10, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective corrective action process to ensure recorded corrective action plans for any nonconformance are tracked, additional actions are taken when a corrective action is off-track, all actions are verifiably closed and closure is confirmed by a management representative. and there is a demonstrated link between the CAP and the performance management objectives and targets.; adequate and effective preventative action process to ensure preventative action is taken as a result of medical surveillance or injury, workers are removed from the current job immediately and offered another position in the facility, labor contract termination is prohibited due to the medical surveillance results, medical treatment, re-examination, and rehabilitation to the worker is provided and paid by employer **Data Point:** Record Review: 1 out of 1 Health & Safety self audits for the period December 2024 to November 2025 demonstrate all audited aspects are in conformance **Data Point:** Record Review: 2 out of 2 government inspections for the period December 2022 to November 2025 demonstrate have not identified any non-conformances **Data Point:** Record Review: 2 out of 2 corrective action plans for the period December 2024 to November 2025 demonstrate management system review findings, self audit findings, government inspection findings and off-track indicators, objectives and targets have a corrective action plan **Data Point:** Record Review: 2 out of 2 corrective action plan closure reports for the period December 2024 to November 2025 demonstrate closure verification reports with mgmt. confirmation exist for each corrective action plan item **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
C) ENVIRONMENT	
C1) ENVIRONMENTAL PERMITS AND REPORTING	
Question #	VAP-C1.1
Question Text	All required permits, licenses and test reports for environment are in place and communicated timely to the government (if required).
Rating	Conformance
Conclusion	All required permits, licenses and test reports for environment are in place and communicated timely to government (if required)

Validated Audit Report

Data points	**Data Point:** Site Observation: Permits related to special equipment are posted when required; Licenses related to special equipment are posted when required; Test results related to special equipment are posted when required; Required postings are current and located in public view. **Data Point:** Record Review: Permits: Permit 1: Yes; Title: Permit of pollution discharge ; Record Reference: 91330424MA2BB9TR01001Q ; Version no.: Nil; *Issue date: June 26, 2022; *Expiry date: June 25, 2027 Permit 2: Yes, 2 out of 2 Approvals for environmental impact assessment reports; Title: Approval for the Environmental Impact Assessment report ; Record Reference: Jiayan-huanjian-2019-80; Version no.: Nil; *Issue date: May 20, 2019; *Expiry date: Nil Permit 3: NA Permit 4: NA Permit 5: NA **Data Point:** Record Review: Licenses: License 1: NA License 2: NA License 3: NA License 4: NA License 5: NA **Data Point:** Record Review: Test reports: Test Report 1: Yes, 2 out of 2 Environmental Impact Assessment Reports; Title: Environmental Impact Assessment Report ; Record Reference: Yi-2060; Version no.: Nil; *Issue date: March 01, 2019; *Expiry date: Nil Test Report 2: Yes, 2 out of 2 Environmental Protection Facilities Completion Acceptance reports ; Title: Environmental Protection Facilities Completion Acceptance report ; Record Reference: Nil; Version no.: Nil; *Issue date: October 22, 2021; *Expiry date: Nil Test Report 3: Yes, 4 out of 4 waste gas, wastewater and environmental noise testing and monitoring reports ; Title: waste gas, wastewater and environmental noise testing and monitoring reports ; Record Reference: LVJIAN-2025-1474; Version no.: Nil; *Issue date: November 03, 2025; *Expiry date: Null Test Report 4: NA Test Report 5: NA **Data Point:** Record Review: Certificates: Certificate 1: NA Certificate 2: NA Certificate 3: NA Certificate 4: NA Certificate 5: NA **Data Point:** Record Review: Government Reports: Government Report 1: NA Government Report 2: NA Government Report 3: NA Government Report 4: NA Government Report 5: NA **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
C2) HAZARDOUS SUBSTANCES	
Question #	VAP-C2.1
Question Text	Hazardous waste is responsibly disposed of using government-approved and/or licensed vendors
Rating	Conformance
Conclusion	Hazardous waste is responsibly disposed of using government-approved and/or licensed vendors
Data points	**Data Point:** Record Review: 2 out of 2 non-government transport and disposal vendors assessments for the period December 2024 to November 2025 demonstrate Assessments reports for each non-government transport and disposal vendor with possible areas for improvement are established **Data Point:** Record Review: 2 out of 2 Hazardous waste inventory records for the period December 2024 to November 2025 demonstrate are accurate and maintained **Data Point:** Record Review: 2 out of 2 Inspection records of hazardous waste for the period December 2024 to November 2025 demonstrate are accurate and maintained for each hazardous waste and each point of storage of hazardous waste **Data Point:** Record Review: 2 out of 2 Copies of hazardous waste shipping papers for the period December 2024 to November 2025 demonstrate are Accurate and maintained **Data Point:** Record Review: 2 out of 2 non-government transport and disposal vendors certificates or licensed for the period December 2024 to November 2025 demonstrate are Current and maintained for all non-government transport and disposal vendors and approved by the local regulatory authorities **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
C3) SOLID WASTE	
Question #	VAP-C3.1
Question Text	Solid waste is managed and disposed of responsibly.
Rating	Conformance
Conclusion	Solid waste is managed and responsibly disposed of

Validated Audit Report

Data points	**Data Point:** Site Observation: Engineering controls are adequate and effective; Waste is adequately and effectively categorized; Waste is adequately and effectively handled; Waste is adequately and effectively stored; Waste is adequately and effectively moved within a single facility and between multiple facilities; Waste access is controlled; Waste is adequately and effectively segregated; Waste is adequately and effectively ventilated; Waste has adequate and effective fire protection; Potential employee exposure methods are adequate and effective **Data Point:** Record Review: 2 out of 2 waste inventory records for the period December 2024 to November 2025 demonstrate are accurate and maintained **Data Point:** Record Review: 2 out of 2 Waste inspection records for the period December 2024 to November 2025 demonstrate are accurate and maintained for each waste and points of storage of waste with effective process and administrative controls **Data Point:** Record Review: 2 out of 2 Copies of waste shipping papers for the period December 2024 to November 2025 demonstrate are accurate and maintained **Data Point:** Record Review: 2 out of 2 non-government transport and disposal vendors certificates or licensed for the period December 2024 to November 2025 demonstrate are Current and maintained for all non-government transport and disposal vendors and approved by the local regulatory authorities **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
C4) AIR EMISSIONS	
Question #	VAP-C4.1
Question Text	Air emissions and the performance of air emission control systems are routinely monitored.
Rating	Conformance
Conclusion	Air emissions are routinely monitored, and air emission control systems are routinely monitored for performance
Data points	**Data Point:** Site Observation: Engineering controls are adequate and effective; Air emission treatment equipment is identified, appropriate and well maintained; Air emission are treated prior to discharge in accordance with permit requirement; Ozone depleting substances are clearly labeled **Data Point:** Record Review: 12 out of 12 maintenance records for the period December 2024 to November 2025 demonstrate Accurate, maintained and air emission treatment equipment is good working order **Data Point:** Record Review: 12 out of 12 air treatment equipment evaluation records for the period December 2024 to November 2025 demonstrate Accurate, maintained and emission treatment equipment efficiency and integrity is as required and process and administrative controls are effective **Data Point:** Record Review: 12 out of 12 air treatment equipment inspection records for the period December 2024 to November 2025 demonstrate Accurate, maintained and emission treatment equipment efficiency and integrity is as required and process and administrative controls are effective **Data Point:** Record Review: List of air emissions and Ozone Depleting Substances , Record reference: Nil, Version Number: Nil, Issue date: June 15, 2025, Expiry date: Null, States: Accurate, up to date list of air emissions and Ozone Depleting Substances is maintained **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-C4.2
Question Text	Environmental noise levels are within regulatory limits.
Rating	Conformance
Conclusion	Environmental noise levels are within regulatory limits

Important Notice
RBA CONFIDENTIAL - Internal use ONLY
The information in this report is strictly confidential and subject to the RBA Validated Audit Agreement.

Validated Audit Report

Data points	**Data Point:** Site Observation: Engineering controls are adequate and effective; No excessive boundary noise; Boundary noise control devices are well maintained, appropriate and identified **Data Point:** Record Review: 12 out of 12 maintenance records for the period December 2024 to November 2025 demonstrate accurate, maintained and boundary noise control devices are in good working order **Data Point:** Record Review: 4 out of 4 boundary noise control devices evaluation records for the period December 2024 to November 2025 demonstrate accurate, maintained and boundary noise control device efficiency and integrity is as required and process and administrative controls are effective **Data Point:** Record Review: 4 out of 4 boundary noise control device inspection records for the period December 2024 to November 2025 demonstrate Accurate, maintained and boundary noise control device efficiency and integrity is as required and process and administrative controls are effective **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
C5) WATER MANAGEMENT	
Question #	VAP-C5.1
Question Text	Adequate and effective process are in place to record, characterize, and monitor water sources, water discharge and control channels of contamination.
Rating	Conformance
Conclusion	Adequate and effective process are in place to record, characterize, and monitor water sources, water discharge and control channels of contamination
Data points	**Data Point:** Site Observation: Engineering controls are adequate and effective; Water channels are protected from contamination; Water channels appear free of contamination; The source of water is clear; Water withdrawal don't appear to heavily impact local waterbodies; Water discharge points don't appear to heavily impact local waterbodies; Equipment are compatible with the waste materials being stored; Equipment such as tanks, piping, and storage vessels are compatible with the waste materials being transported.; Industrial wastewater is treated in accordance with permit requirements.; sanitary wastewater is treated in accordance with permit requirements.; Wastewater treatment system is in operation; Wastewater treatment system is well maintained; Wastewater treatment system appears to be operating effectively based on visual inspection.; Appropriate emergency response equipment and materials are in place to respond to a possible water channel contamination **Data Point:** Record Review: 12 out of 12 Industrial wastewater inventory records for the period December 2024 to November 2025 demonstrate accurate and maintained **Data Point:** Record Review: 12 out of 12 Waste water inspection records for the period December 2024 to November 2025 demonstrate Accurate, maintained for each waste water and points of storage of waste water and waste water treatment equipment efficiency and integrity is as required and process and administrative controls are effective **Data Point:** Record Review: 12 out of 12 Copies of wastewater shipping papers for the period December 2024 to November 2025 demonstrate Accurate and maintained **Data Point:** Record Review: 2 out of 2 non-government transport and disposal vendors certificates or licensed for the period December 2024 to November 2025 demonstrate Current and maintained for all non-government transport and disposal vendors and approved by the local regulatory authorities **Data Point:** Record Review: 12 out of 12 water contamination log for the period December 2024 to November 2025 demonstrate Accurate and maintained, potential contamination sources to water channels are identified, identified water channel contamination sources and description of spills/water channel contamination **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
C6) ENERGY CONSUMPTION AND GREENHOUSE GAS EMISSIONS	
Question #	VAP-C6.1
Question Text	Energy consumption and all scopes 1, 2, and significant categories of Scope 3 Greenhouse gas (GHG) emissions are tracked, documented, and publicly reported against an absolute corporate-wide GHG reduction goal.
Rating	Conformance

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Conclusion	Energy consumption and all scopes 1, 2, and significant categories of Scope 3 Greenhouse gas (GHG) emissions are tracked, documented, and publicly reported against an absolute corporate-wide GHG reduction goal
Data points	**Data Point:** Site Observation: Engineering controls are adequate and effective; There is no significant energy consumption or GHG emissions at the facility that are not tracked and recorded **Data Point:** Record Review: 12 out of 12 energy use inventory records for the period December 2024 to November 2025 demonstrate The sources of electricity are maintained, documented, consumption recorded and accurate by source at the facility level, including the following factors on-site combustion, purchased electricity and renewable energy use **Data Point:** Record Review: 12 out of 12 energy use inventory records for the period December 2024 to November 2025 demonstrate The sources of energy other than electricity are maintained, documented, consumption recorded and accurate by source at the facility level, including the following factors oil, coal, diesel, natural gas, propane, garbage, steam, heating, and cooling and renewable energy use **Data Point:** Record Review: 12 out of 12 scope 1 GHG calculation records for each source for the period December 2024 to November 2025 demonstrate scope 1 GHG calculation records for each source are accurate **Data Point:** Record Review: 12 out of 12 information records for the period December 2024 to November 2025 demonstrate Significant categories of scope 3 GHG are determined through a materiality or similar process, documented and up to date at corporate level/facility level **Data Point:** Record Review: 12 out of 12 information records for the period December 2024 to November 2025 demonstrate Scope 3 GHG emissions are calculated, tracked and up-to-date at corporate level/facility level **Data Point:** Record Review: Annual corporate publication report, Record reference: Ref:2495628, Version Number: Nil, Issue date: July 15, 2025, Expiry date: Null, States: annual public report stating the absolute corporate-wide reduction target and performance **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
C.M.1) RISK ASSESSMENT	
Question #	VAP-C.M.1.1
Question Text	An adequate and effective environment compliance process is established to monitor, identify, understand and ensure compliance with applicable laws and regulations and customer requirements.
Rating	Conformance
Conclusion	An adequate and effective environment compliance process to monitor, identify, understand and ensure compliance with applicable laws and regulations and customer requirements is established
Data points	**Data Point:** Record Review: EHS compliance procedure , Record reference: AHY/H-E-01, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: Adequate and effective quarterly compliance review procedure including applicable legal requirements and applicable customer requirements; To identify, assess, integrate, implement and record; And to ensure timely renewal for the expiration of permits, licenses and testing reports **Data Point:** Record Review: EHS compliance calendar , Record reference: Nil, Version Number: Nil, Issue date: November 12, 2025, Expiry date: Null, States: Accurate, up to date compliance calendar including applicable legal requirements and applicable customer requirements; A reminder system **Data Point:** Record Review: EHS compliance register , Record reference: Nil, Version Number: Nil, Issue date: November 12, 2025, Expiry date: Null, States: Accurate, up to date compliance register with summaries of applicable laws, regulations and key RBA code related customer requirements that impact the operations **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
Question #	VAP-C.M.1.2
Question Text	An adequate and effective due diligence process is established to identify and assess the most significant actual and potential environmental risks where the facility caused or contributed to adverse environmental impacts for internal and external stakeholders (including applicable requirements).
Rating	Conformance
Conclusion	An adequate and effective due diligence process is established to identify and assess the most significant actual and potential environmental risks where the facility caused or contributed to adverse environmental impacts for internal and external stakeholders including applicable requirements.

Validated Audit Report

Data points	**Data Point:** Record Review: EHS risk assessment procedure , Record reference: AHY/H-E-12, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective risk assessment process is in place to identify the most actual and potential environmental risks where the facility caused or contributed to adverse environmental impacts for internal and external stakeholders including applicable requirements covering at least every environmental medium, Greenhouse Gas impact and Ozone depleting substances impact ; The risk assessment is updated when there is a Significant Change; The scope of the risk assessment includes every environmental medium, every site operation/process, every physical location, every Chemical or material used and all identified internal and external stakeholders, including at least direct and indirect workers, young workers, migrant workers,worker representatives, staff functions, on-site service providers, suppliers, customers and stakeholders immediately neighboring the site. **Data Point:** Record Review: 2 out of 2 risk assessments for the period December 2024 to November 2025 demonstrate Each identified risk include and assess legal and customer requirements and has an action to minimize such risk through the Hierarchy of Controls for the most significant risks; risk assessments are updated when there is a Significant Change **Data Point:** Record Review: Stakeholder management procedure , Record reference: SAA/H-E15-01, Version Number: A, Issue date: September 01, 2019, Expiry date: Null, States: an adequate and effective internal and external stakeholder identification process for environment **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
C.M.2) CONTROL PROCESSES	
Question #	VAP-C.M.2.1
Question Text	Environment responsibilities and authorities are adequately and effectively defined and assigned for all employee levels (senior managers to workers) for the implementation of management systems, and for compliance with laws, regulations, and codes.
Rating	Conformance
Conclusion	Environment responsibilities and authorities are adequately and effectively defined and assigned for all employees/workers (senior managers to workers) for implementation of management systems, and for compliance with laws, regulations and codes
Data points	**Data Point:** Record Review: EHS assignment letter , Record reference: Nil, Version Number: Nil, Issue date: October 01, 2022, Expiry date: Null, States: A record assigns a senior representative the responsibility to ensure compliance with laws and regulations, compliance with the requirements of the RBA and is authorized to make decisions on programs, process actions and corrective actions; Responsibilities and authorities of each organizational level are documented in regular and emergency situations; A specific individual or individuals responsible for all aspects of hazardous waste, waste, air emission treatment, environmental noise, wastewater, energy and GHG and the elimination of ozone depleting substances **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-C.M.2.2
Question Text	Adequate and effective environment policies and control processes are established.
Rating	Conformance
Conclusion	Adequate and effective environment policies and control processes are established

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Data points	**Data Point:** Record Review: Environmental impact control procedure, Record reference: AHY/H-E-05, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective environmental impact reduction policy and procedure to ensure the elimination of ozone depleting substance (ODS) reduction of energy and GHG, use of natural resources, raw materials and resulting waste **Data Point:** Record Review: Waste control procedure, Record reference: AHY/A-SE02-02, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective waste management reduction policy and procedure to manage the reception, storage, dispensing, disposal of each hazardous waste within the facility **Data Point:** Record Review: Ozone depleting substances control procedure, Record reference: AHY/Q-E05-38, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adequate and effective ozone depleting substances management reduction policy and procedure to identify, label, eliminate and safe disposal of each ozone depleting substances **Data Point:** Record Review: Environmental mornitoring procedure, Record reference: AHY/H-E-03, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective control and reduction process for each envirnmental impact demonstrating the Hierarchy of Controls in a documented gated process that each hierarchy level has been fully evaluated, reasons why it could not address the risk fully before proceeding to the next hierarchy level **Data Point:** Record Review: Environmental impact control procedure, Record reference: AHY/H-E-05, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective preventive maintenance process for all treatment equipment for each environmental medium. **Data Point:** Record Review: Environmental emergency reponse plan, Record reference: AFNYY-HJYA-2025 , Version Number: V3.0, Issue date: May 10, 2025, Expiry date: Null, States: adequate and effective emergency response process with clearly defined steps and roles/responsibilities **Data Point:** Record Review: Environmental inestigation procedure, Record reference: AHY/H-E-07, Version Number: Nil, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective investigation process of each environmental incident resulting in a preventive and corrective action plan. **Data Point:** Record Review: 4 out of 4 environmental records for the period December 2024 to November 2025 demonstrate appropriate retention on-site and off-site with appropriate levels of access to ensure privacy and conforming to legal and customer requirements **Data Point:** Record Review: 2 out of 2 controls effectiveness evaluation for the period December 2024 to November 2025 demonstrate controls effectiveness evaluation is done on a regular basis **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-C.M.2.3
Question Text	An adequate and effective environment training process is established for all managers/workers on all policy/process/job related aspects and performance targets.
Rating	Conformance
Conclusion	An adequate and effective environment training process is established for all managers/workers on all policy/process/job related aspects and performance targets

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Data points	**Data Point:** Record Review: EHS training procedure , Record reference: AHY/A-EQ-01, Version Number: B, Issue date: July 29, 2019, Expiry date: Null, States: adequate and effective training process for workers, managers and new employee orientation plan. Training is provided to all workers prior to the beginning of work and workers responsible for storage, clean up or disposal of hazardous waste and waste receive specialized training **Data Point:** Record Review: EHS training needs analysis , Record reference: Nil, Version Number: Nil, Issue date: December 10, 2024, Expiry date: Null, States: Training Needs Analysis covers minimum training topics and workers responsible for storage, clean up or disposal of hazardous waste and waste receive specialized training. **Data Point:** Record Review: EHS training plan, Record reference: Nil, Version Number: Nil, Issue date: January 05, 2020, Expiry date: Null, States: adequate training plan covers all topics identified in the training needs analysis with an adequate training frequency. Training is provided to all workers prior to the beginning of work **Data Point:** Record Review: 4 out of 4 environmental training materials for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training materials **Data Point:** Record Review: 4 out of 4 environmental training records for the period December 2024 to November 2025 demonstrate Each training on the training plan have adequate training records for all attendees **Data Point:** Record Review: 4 out of 4 environmental training efficiency verifications for the period December 2024 to November 2025 demonstrate Each training on the training plan have adequate training verification records for all attendees **Data Point:** Record Review: 2 out of 2 learner personnel files for the period December 2024 to November 2025 demonstrate an outline of the learner training program with copies of the training material **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
C.M.3) COMMUNICATIONS	
Question #	VAP-C.M.3.1
Question Text	An adequate and effective ongoing two-way communication process with workers, internal and external stakeholders, where relevant or necessary, is established to obtain feedback on operational environmental practices and conditions and to foster continuous improvement.
Rating	Conformance
Conclusion	An adequate and effective ongoing two-way communication process with workers, internal and external stakeholders, where relevant or necessary, is established to obtain feedback on operational environmental practices and conditions and to foster continuous improvement

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Data points	**Data Point:** Site Observation: feedback channels are clearly communicated and visible.; environmental communication clearly posted in the facility in a location identifiable and accessible by workers.; clear Hazard signage.; clear hazard information is available at the point of use. **Data Point:** Record Review: EHS communication and reporting procedure , Record reference: AHY/H-E-07, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective communication and reporting process to suppliers, customers, workers and managers including seeking input and feedback from workers and public reporting on GHG footprint **Data Point:** Record Review: 4 out of 4 Communication and reporting process demonstrate requirements of code implementation **Data Point:** Record Review: 6 out of 6 contracts with suppliers demonstrate contract terms and conditions requiring Suppliers to conform to the RBA code **Data Point:** Record Review: 6 out of 6 Correspondence to customers management for the period December 2024 to November 2025 demonstrate Environment practices and performance **Data Point:** Record Review: 6 out of 6 Correspondence to workers and managers for the period December 2024 to November 2025 demonstrate all minimum communication topics are covered and written information to workers on how to provide input and feedback for improvement; all hazards present at the site and action promoting of a safe workplace are communicated **Data Point:** Record Review: Public Corporate GHG footprint report , Record reference: Nil, Version Number: Nil, Issue date: July 15, 2025, Expiry date: Null, States: annual public report with absolute corporate-wide reduction target and performance on scope 1,2 and 3 GHG **Data Point:** Record Review: 6 out of 6 Communications effectiveness records for the period December 2024 to November 2025 demonstrate Effectiveness verification is done regularly **Data Point:** Record Review: 6 out of 6 Input and feedback records for the period December 2024 to November 2025 demonstrate input and feedback from workers is adequately received **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-C.M.3.2
Question Text	An adequate and effective process is established to anonymously report environmental grievances confidentially without fear of reprisal or intimidation.
Rating	Conformance
Conclusion	An adequate and effective process is established to anonymously report environmental grievances confidentially without fear of reprisal or intimidation
Data points	**Data Point:** Site Observation: grievance channels are clearly communicated; internal communication of the grievance mechanism must be in workers' native language(s) and visible **Data Point:** Record Review: Grievance procedure , Record reference: Nil, Version Number: Nil, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective grievance process for internal and external stakeholders to anonymously report grievances without fear of reprisal through clear grievance channels so reporting is encouraged and comfortable and workers scan raise environmental concerns **Data Point:** Record Review: 6 out of 6 Grievance records for the period December 2024 to November 2025 demonstrate grievances from stakeholders are adequately received **Data Point:** Record Review: 6 out of 6 environmental concern logs for the period December 2024 to November 2025 demonstrate environmental concerns from stakeholders is adequately received **Data Point:** Record Review: 6 out of 6 Investigation records for the period December 2024 to November 2025 demonstrate the validity of any grievance is promptly investigated and each valid grievance has an action plan **Data Point:** Record Review: 6 out of 6 Correspondence to workers and managers and external stakeholders for the period December 2024 to November 2025 demonstrate written information on how to report a grievance **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed

Validated Audit Report

C.M.4) PERFORMANCE REVIEW AND CONTINUOUS IMPROVEMENT	
Question #	VAP-C.M.4.1
Question Text	An adequate and effective environment management performance review and continuous improvement process is established.
Rating	Conformance
Conclusion	An adequate and effective environment management performance review and continuous improvement process is established
Data points	**Data Point:** Record Review: EHS performance management process, Record reference: AHY/Q-EQ-05, Version Number: B, Issue date: November 17, 2020, Expiry date: Null, States: adequate and effective performance management process to annually review the performance and management system and take additional action plans if indicators, objectives or targets are off track, reduction programs are structured with roles and responsibilities and do not harm workers or entail excessive cost. **Data Point:** Record Review: Environmental Indicator, target and objective performance , Record reference: AHY/H-E-06 , Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: formal indicator, target and objective communication to workers with clearly defined forward looking numeric and greater than 0 goal within the time period for each indicator, target and objective **Data Point:** Record Review: 2 out of 2 Action plans for the period December 2024 to November 2025 demonstrate All indicators, objectives or targets are on-track or an action plan is in place for those off-track **Data Point:** Record Review: 2 out of 2 Progress reports for the period December 2024 to November 2025 demonstrate each indicator, objective and target has progress reported regularly **Data Point:** Record Review: Environmental materiality assessment report, Record reference: Nil, Version Number: Nil, Issue date: September 12, 2025, Expiry date: Null, States: is current, adequate and includes the materilaity for each environmental aspect of the operation and is updated after a Signifcant Change **Data Point:** Record Review: 2 out of 2 Environmental system evaluations reports for the period December 2024 to November 2025 demonstrate Regular evaluations are done for the effectiveness of every program, training, communication, grievances, environmental practices and concerns **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-C.M.4.2
Question Text	An adequate and effective environmental self-audit process is established to assess conformance with the RBA Code and customer requirements periodically.
Rating	Conformance
Conclusion	An adequate and effective environment self-audit process to periodically assess conformance with the RBA Code and customer requirements
Data points	**Data Point:** Record Review: Self audit management procedure, Record reference: AHY/Q-EQ-01, Version Number: B, Issue date: November 27, 2020, Expiry date: Null, States: adequate and effective self audit process to periodically assess conformance with applicable regulatory, RBA, customer and other requirements the facility subscribes to. The audit findings are reviewed by senior management. **Data Point:** Record Review: 1 out of 1 Environmental self audits for the period December 2024 to November 2025 demonstrate Self audits are performed regularly and audit findings are reviewed by senior management. **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
Question #	VAP-C.M.4.3
Question Text	An adequate and effective environmental corrective action process is established to rectify and close non-conformances.
Rating	Conformance
Conclusion	An adequate and effective environmental corrective action process is established to rectify and close non-conformances

Important Notice
RBA CONFIDENTIAL - Internal use ONLY
The information in this report is strictly confidential and subject to the RBA Validated Audit Agreement.

Validated Audit Report

Data points	**Data Point:** Record Review: Corrective action procedure, Record reference: AHY/H-E-10, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective corrective action process to ensure recorded corrective action plans for any nonconformance are tracked, additional actions are taken when a corrective action is off-track, all actions are verifiably closed and closure is confirmed by a management representative. and there is a demonstrated link between the CAP and the performance management objectives and targets. **Data Point:** Record Review: 1 out of 1 Environmental self audits for the period December 2024 to November 2025 demonstrate all audited aspects are in conformance **Data Point:** Record Review: 2 out of 2 government inspections for the period December 11, 2022 to November 2025 demonstrate have not identified any non-conformances **Data Point:** Record Review: 2 out of 2 corrective action plans for the period December 2024 to November 2025 demonstrate management system review findings, self audit findings, government inspection findings and off-track indicators, objectives and targets have a corrective action plan **Data Point:** Record Review: 2 out of 2 corrective action plan closure reports for the period December 2024 to November 2025 demonstrate closure verification reports with mgmt. confirmation exist for each corrective action plan item **Data Point:** Management Interview Not disclosed; Title: EHS Manager confirms audit observations
D) ETHICS	
D1) BUSINESS INTEGRITY AND NO IMPROPER ADVANTAGE	
Question #	VAP-D1.1
Question Text	No identified risk or evidence of bribes or obtaining undue or improper advantage being promised, offered, authorized, given or accepted.
Rating	Conformance
Conclusion	No identified risk or evidence of bribes or obtaining undue or improper advantage being promised, offered, authorized, given or accepted
Data points	**Data Point:** Record Review: 2 out of 2 public information records for the period December 2024 to November 2025 demonstrate Public Information records does not reveal any current cases or allegations on bribery, improper advantage, corruption, extortion or embezzlement **Data Point:** Record Review: 6 out of 6 grievance records for the period December 2024 to November 2025 demonstrate Does not reveal any current cases or allegations on bribery, improper advantage, corruption, extortion or embezzlement; Confirm no negative consequence for any worker or employee refusing to do anything in non-conformance with the “highest standard of integrity” policy **Data Point:** Record Review: 29 out of 29 Declarations of conflict of interest for the period December 2024 to November 2025 demonstrate are recorded, adequate for direct and indirect workers **Data Point:** Record Review: 29 out of 29 Personnel files confirm no negative consequence for any worker or employee refusing to do anything in Non-conformance with the “highest standard of integrity” policy **Data Point:** Record Review: 6 out of 6 leave records for the period December 2024 to November 2025 demonstrate Confirm no negative consequence for any worker or employee refusing to do anything in non-conformance with the “highest standard of integrity” policy **Data Point:** Record Review: 6 out of 6 disciplinary records for the period December 2024 to November 2025 demonstrate Confirm no negative consequence for any worker or employee refusing to do anything in Non-conformance with the “highest standard of integrity” policy **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
D2) DISCLOSURE OF INFORMATION	
Question #	VAP-D2.1
Question Text	No evidence of misreporting, record falsification, misrepresentation or evidence of communicating inaccurate information to the public
Rating	Conformance

Validated Audit Report

Conclusion	No evidence of misreporting, record falsification, misrepresentation or evidence of communicating inaccurate information to the public
Data points	**Data Point:** Record Review: 3 out of 3 public company information records for the period December 2024 to November 2025 demonstrate All public company information records are accurate **Data Point:** Record Review: Annual Report, Record reference: Deshihangzhoubao (Shen) Zi (25) No. P00025, Version Number: Nil., Issue date: May 29, 2025, Expiry date: Null, States: Annual report about the Auditee's business operations is available, is auditing by third party certified auditors and does not show discrepancy with other company information **Data Point:** Record Review: 3 out of 3 information records for the period December 2024 to November 2025 demonstrate Information records reviewed during the Validated Audit are accurate.; There are no attempt of or falsification of records or misrepresentation of conditions or practices **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
D3) INTELLECTUAL PROPERTY	
Question #	VAP-D3.1
Question Text	No evidence of Intellectual Property or business information loss or unauthorized disclosure (the Reviewee's own and that of their customers/suppliers).
Rating	Conformance
Conclusion	No evidence of Intellectual Property or business information loss or unauthorized disclosure (the Auditee's own and that of their customers/suppliers)
Data points	**Data Point:** Site Observation: IP and business information is visibly protected **Data Point:** Record Review: IP and business information protection procedure, Record reference: AHY/A-S-04, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: Adequate and effective IP and business information protection process which includes administrative control, IT control to access IT systems or to access IP or business information **Data Point:** Record Review: 29 out of 29 Protection agreements for the period December 2024 to November 2025 are in place for all employees, workers, suppliers and customers **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
D4) FAIR BUSINESS, ADVERTISING AND COMPETITION	
Question #	VAP-D4.1
Question Text	No identified risk or evidence of non-conformance with fair business, advertising and competition standards.
Rating	Conformance
Conclusion	No identified risk or evidence of non-conformance with fair business, advertising and competition standards
Data points	**Data Point:** Record Review: 6 out of 6 grievance records for the period December 2024 to November 2025 demonstrate No confirmed or unactioned cases on fair business, fair advertising or fair competition. **Data Point:** Record Review: 6 out of 6 investigation records for the period December 2024 to November 2025 demonstrate Each case is investigated, documented, has a conclusion matching the investigation results and each investigation which confirms the allegation has a documented action plan **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 2 out of 2 workers interview reveal audit observations are correct. All findings are confirmed
D5) PROTECTION OF IDENTITY AND NON-RETALIATION	
Question #	VAP-D5.1
Question Text	No evidence of retaliation or reduced protection of identity.
Rating	Conformance
Conclusion	No evidence of retaliation or reduced protection of identity

Data points	**Data Point:** Record Review: 6 out of 6 grievance records for the period December 2024 to November 2025 demonstrate No forms of retaliation **Data Point:** Record Review: 6 out of 6 investigation records for the period December 2024 to November 2025 demonstrate No forms of retaliation **Data Point:** Record Review: 6 out of 6 grievance communication records for the period December 2024 to November 2025 demonstrate Not breach protection of identity **Data Point:** Record Review: 29 out of 29 Personnel files No forms of retaliation and no redundancies as a form of retaliation **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
D6) PRIVACY	
Question #	VAP-D6.1
Question Text	No evidence of unauthorized disclosure of personal information.
Rating	Conformance
Conclusion	No evidence of unauthorized disclosure of personal information
Data points	**Data Point:** Site Observation: Personal information is visibly protected **Data Point:** Record Review: 6 out of 6 information records for the period December 2024 to November 2025 demonstrate information records are not viewable to someone unauthorized and only collected, stored, processed, transmitted, shared with the individual specific approval information only **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
D.M.1) RISK ASSESSMENT	
Question #	VAP-D.M.1.1
Question Text	An adequate and effective ethics compliance process is established to monitor, identify, understand, and ensure compliance with applicable laws, regulations, and customer requirements.
Rating	Conformance
Conclusion	An adequate and effective ethics compliance process to monitor, identify, understand and ensure compliance with applicable laws and regulations and customer requirements is established
Data points	**Data Point:** Record Review: Quarterly compliance review procedure, Record reference: AHY/A-S-02-2, Version Number: B, Issue date: January 10, 2024, Expiry date: Null, States: Adequate and effective quarterly compliance review procedure including applicable legal requirements and applicable customer requirements; To identify, assess, integrate, implement and record; And to ensure timely renewal for the expiration of permits, licenses and testing reports **Data Point:** Record Review: Ethics compliance calendar, Record reference: Nil., Version Number: Nil., Issue date: September 24, 2025, Expiry date: Null, States: Accurate, up to date compliance calendar including applicable legal requirements and applicable customer requirements; a reminder system **Data Point:** Record Review: Compliance register, Record reference: Nil., Version Number: Nil., Issue date: September 24, 2025, Expiry date: Null, States: Accurate, up to date compliance register with summaries of applicable laws, regulations and key RBA code related customer requirements that impact the operations **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations
D.M.2) CONTROL PROCESSES	
Question #	VAP-D.M.2.1
Question Text	Ethics responsibilities and authorities are adequately and effectively defined and assigned for all employee levels (senior managers to workers) for the implementation of management systems, and for compliance with laws, regulations, and codes.
Rating	Conformance
Conclusion	Ethics responsibilities and authorities are adequately and effectively defined and assigned for all employees/workers (senior managers to workers) for implementation of management systems, and for compliance with laws, regulations and codes

Validated Audit Report

Data points	**Data Point:** Record Review: Labor & Ethics assignment Letter, Record reference: AHY/SA-2019, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: A record assigns a senior representative the responsibility to ensure compliance with laws and regulations, compliance with the requirements of the RBA and is authorized to make decisions on programs, process actions and corrective actions; Responsibilities and authorities of each organizational level are documented in regular and emergency situations **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-D.M.2.2
Question Text	Adequate and effective ethics policies and control processes are established.
Rating	Conformance
Conclusion	Adequate and effective ethics policies and control processes are established
Data points	**Data Point:** Record Review: Ethic policy , Record reference: AHY/A-S-01, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adequate and effective ethics policy and procedure to uphold the highest standards of integrity in all business interactions with a zero tolerance to any and all forms of bribery, corruption, extortion, embezzlement, other methods of obtaining undue or improper advantage, are not promised, offered, authorized, given or accepted, to ensure no conflicts of interest and compliance with anti-corruption laws, all business dealings are accurately reflected on books and records and transparently performed, no misrepresentation by workers, managers or agents, fair business, advertising and competition standards, prohibition collusion with other companies on product pricing or other factors that could reduce competition; adequate and effective ethics policy and procedure to protect IP ownership and IP, information received from suppliers and customers as part of the contracting process, identity, retaliation, whistle-blowers, users the of the grievance mechanism and personal information **Data Point:** Record Review: Gift Policy , Record reference: AHY/A-S-02, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adquate and effective gift policy and procedure to ensure gifts to or from suppliers and customers are not excessive in cost and frequency. **Data Point:** Record Review: Ethics Investigation procedure, Record reference: AHY/A-S-03, Version Number: A, Issue date: April 01, 2019, Expiry date: Null, States: adquate and effective ethics investigation process for every ethics alleged violation with appropriate sanctions and preventive action plans when a ethics violation is confirmed **Data Point:** Record Review: 6 out of 6 investigation records for the period December 2024 to November 2025 demonstrate allegations on ethics are received, investigated and preventive action plan is implemented when a ethics violation is confirmed **Data Point:** Record Review: 6 out of 6 grievance records for the period December 2024 to November 2025 demonstrate ethics violations are accurately recorded **Data Point:** Record Review: 29 out of 29 personnel files show appropriate sanctions for proven ethics violations and do not show a negative consequence for refusing to do anything in non-conformance with the “highest standard of integrity” policy, reporting a grievance or being a whistle-blower **Data Point:** Record Review: Control process for each ethics topic, Record reference: Nil., Version Number: Nil., Issue date: July 01, 2023, Expiry date: Null, States: an adequate and effective control process for each ethics topic demonstrating the Hierarchy of Controls in a documented gated process that each hierarchy level has been fully evaluated, reasons why it could not address the risk fully before proceeding to the next hierarchy level; a preventive action process for to improve the ethics processes including investigation of each ethics violation allegation resulting in a preventive and corrective action plan. **Data Point:** Record Review: 2 out of 2 ethics records for the period December 2024 to November 2025 demonstrate appropriate retention on-site and off-site with appropriate levels of access to ensure privacy and conforming to legal and customer requirements **Data Point:** Record Review: 2 out of 2 controls effectiveness evaluation for the period December 2024 to November 2025 demonstrate controls effectiveness evaluation is done on a regular basis **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
Question #	VAP-D.M.2.3
Question Text	An adequate and effective ethics training process is established for all managers/workers on all policy/process/job related aspects and performance targets.
Rating	Conformance

Validated Audit Report

Conclusion	An adequate and effective ethics training process is established for all managers/workers on all policy/process/job related aspects and performance targets
Data points	**Data Point:** Record Review: Labor & Ethics training procedure, Record reference: AHY/A-EQ-01, Version Number: A, Issue date: July 01, 2019, Expiry date: Null, States: adequate and effective training process for workers, managers and new employee orientation plan. Training is provided to all workers prior to the beginning of work **Data Point:** Record Review: Labor & Ethics training needs analysis , Record reference: Nil, Version Number: Nil, Issue date: December 10, 2024, Expiry date: Null, States: Training Needs Analysis covers minimum training topics **Data Point:** Record Review: Labor & Ethics training plan, Record reference: Nil, Version Number: Nil, Issue date: January 05, 2025, Expiry date: Null, States: adequate training plan covers all topics identified in the training needs analysis with an adequate training frequency. Training is provided to all workers prior to the beginning of work; b)Training frequency is adequate; c) Training is provided to all workers prior to the beginning of work **Data Point:** Record Review: 3 out of 3 Training materials for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training materials **Data Point:** Record Review: 3 out of 3 Training records for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training records for all attendees **Data Point:** Record Review: 3 out of 3 Training efficiency verifications for the period December 2024 to November 2025 demonstrate each training on the training plan have adequate training verification records for all attendees **Data Point:** No learner personnel files for the period December 2024 to November 2025 **Data Point:** Management Interview Not disclosed; Title: Compensation & benefit Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
D.M.3) COMMUNICATIONS	
Question #	VAP-D.M.3.1
Question Text	An adequate and effective ongoing two-way communication process with workers, internal and external stakeholders, where relevant or necessary, is established to obtain feedback on operational ethics practices and conditions and to foster continuous improvement.
Rating	Conformance
Conclusion	An adequate and effective ongoing two-way communication process with workers, internal and external stakeholders, where relevant or necessary, is established to obtain feedback on operational ethics practices and conditions and to foster continuous improvement

E) SUPPLY CHAIN MANAGEMENT	
E1) COMPANY COMMITMENT	
Question #	VAP-E1.1
Question Text	An adequate and effective Code of Conduct is established and endorsed by executive management covering all elements of the RBA code.
Rating	Conformance
Conclusion	An adequate and effective Code of Conduct is established and endorsed by executive management covering all elements of the RBA code
Data points	**Data Point:** Site Observation: A Code of Conduct in a language understood by each worker is accessible to all workers **Data Point:** Record Review: Code of Conduct, Record reference: SAA/Q-E02, Version Number: X, Issue date: July 31, 2025, Expiry date: Null, States: A code of Conduct covering all elements of the RBA code endorsed by the highest-level manager at the facility; A code of Conduct covering all elements of the RBA code endorsed by the highest-level manager at the corporate level; The code has a commitment to due diligence; The code has a commitment to access to remedy for internal and external stakeholders where the participant caused or contributed to adverse human rights or environmental impacts; The code has a commitment to continuous improvement; The code is appropriate for the nature and scope of the facility's operations.; The code of Conduct is made public; The code of Conduct is communicated to workers via accessible channels in a language the workers understand **Data Point:** Management Interview Not disclosed; Title: Compliance Manager confirms audit observations **Data Point:** Worker Interview 29 out of 29 workers interview reveal audit observations are correct. All findings are confirmed
E2) MATERIALS RESTRICTIONS	
Question #	VAP-E2.1
Question Text	An adequate and effective program is in place for Materials Restrictions as a formal part of the procurement and manufacturing processes.
Rating	Conformance
Conclusion	Adequate and effective program is in place for Materials Restrictions as a formal part of the procurement and manufacturing processes

Responsible Business Alliance
Advancing Sustainability Globally

Validated Audit Report

Data points	**Data Point:** Record Review: Material restrictions policy , Record reference: SAA/Q-E02-01, Version Number: X, Issue date: July 31, 2025, Expiry date: Null, States: An adequate and effective program to ensure chemical composition of materials, of packaging, of components and of products are conform with customer requirements and are conform with legal requirements **Data Point:** Not Applicable, Facility has local implementation for material restrictions **Data Point:** Not Applicable, Facility has local implementation for material restrictions **Data Point:** Not Applicable, Facility has local implementation for material restrictions **Data Point:** Record Review: Facility Material restrictions procedure, Record reference: SAA/Q-E02-03, Version Number: X, Issue date: July 31, 2025, Expiry date: Null, States: Facility Materials Restrictions procedure that is adequate and effective to ensure chemical composition of materials, of packaging, of components and of products are conform with customer requirements and are conform with legal requirements comparing customer requirements to own specifications; Requirements for conformance with the Material Restrictions required to its material or parts Suppliers are documented; Regular assessments of the process to verify conformance are performed; Corrective actions are tracked for non-compliant materials or components and are implemented, additional actions are taken to ensure completion at due date if corrective actions are not on track.; Analytical data from materials or parts is requested from suppliers; Accurate specifications from suppliers are available; Chemical composition of products is available and accurate; Accurate certificates of conformance are provided to customers upon request **Data Point:** Record Review: Retricted materials list, Record reference: Nil., Version Number: Nil., Issue date: August 20, 2025, Expiry date: Null, States: An adequate restricted materials requirements list to ensure chemical composition of materials, of packaging, of components and of products are conform with customer requirements and are conform with legal requirements comparing customer requirements to own specifications **Data Point:** Record Review: 6 out of 6 Action plans for the period December 2023 to November 2025 demonstrate Restricted material restrictions met and an action plan for each element which is off-track is in place and implemented **Data Point:** Record Review: 6 out of 6 Analytical data from suppliers for the period December 2023 to November 2025 demonstrate is available, adequate, current and conform with material restriction requirements **Data Point:** Record Review: 6 out of 6 Product Chemical compositions for the period December 2023 to November 2025 demonstrate is available, adequate, current and conform with material restriction requirements **Data Point:** Record Review: 6 out of 6 Certificates of conformance provided to customers for the period December 2023 to November 2025 demonstrate is available, adequate, current and conform with material restriction requirements **Data Point:** Record Review: 6 out of 6 Specifications from Suppliers for the period December 2023 to November 2025 demonstrate is available, adequate, current and conform with material restriction requirements **Data Point:** Record Review: 6 out of 6 Monitoring & reporting records for the period December 2023 to November 2025 demonstrate is available, adequate, current and conform with material restriction requirements **Data Point:** Management Interview Not disclosed; Title: Compliance Manager confirms audit observations
E3) RESPONSIBLE SOURCING OF MINERALS	
Question #	VAP-E3.1
Question Text	An adequate and effective Conflict Minerals Supply Chain Policy and Management System is designed and implemented to reasonably assure that the tantalum, tin, tungsten, gold, and Cobalt (3TG+C) in the products they manufacture are sourced in a way consistent with the OECD Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas (OECD Due Diligence Guidance) or an equivalent and recognized due diligence framework.
Rating	Conformance
Conclusion	Adequate and effective Conflict Minerals Supply Chain Policy and Management System is designed and implemented to reasonably assure that the tantalum, tin, tungsten, gold, and Cobalt (3TG+C) in the products they manufacture are sourced in a way consistent with the OECD Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas (OECD Due Diligence Guidance) or an equivalent and recognized due diligence framework
